

EXHIBIT B

Conditions of Approval (Conditional Use Permit)

CONDITIONS OF APPROVAL

Conditional Use Permit Nevada Corporate Center

GENERAL REQUIREMENTS Conditions of Operation and Procedures

LAND USE SERVICES - Planning (909) 387-8311

1. Project Approval Description. This Conditional Use Permit (CUP) is approved to be constructed and operated in compliance with the San Bernardino County Code (SBCC), pursuant to the conditions of approval stated herein, the approved site plan and any other required and approved reports and/or displays (e.g. elevations). This project includes the construction of a 318,000 (maximum) square-foot industrial building with 10,000 square feet of office area to be used as a “High Cube” warehouse distribution facility (Project). Proposed Environmental Determination: Mitigated Negative Declaration. The Project site is 12.98 acres located at the southwest corner of San Bernardino Avenue and Nevada Ave. Parking approved for the facility is based upon the above land use description.
 - a) Project signs shall comply with SBCC Chapter 83.13.
 - b) Project landscaping shall comply with SBCC Chapter 83.10
 - c) Project parking and internal access shall comply with SBCC Chapter 83.11. There are 157 parking spaces required and 157 parking spaces are proposed, which includes 151 standard spaces and 6 disabled accessible spaces.
 - d) Project construction shall comply with all applicable construction codes including the California Building Codes (CBC) and Uniform Fire Code (UFC). The “developer” shall provide a copy of the approved conditions and site plan to every current and future project tenant, lessee, and property owner to facilitate compliance with these conditions of approval and continuous use requirements. Project APN: 0292-052-04 and 06; Project Number P201300214.

2. “Developer” Defined. The term “developer” as used in these conditions of approval for this project and for any development of this project site, includes all of the following: the applicant, the property owner and any lessee, tenant or sub-tenant, operator and/or any other agent or other interested party of the subject project and/or project site and/or any heir or any other successor in interest in the project site or project land use by sale or by lease of all or of a portion of the project site or project land uses and/or any other right given to conduct any land use in any or all of the project structures or any area on the project site.

3. High Cube Warehouse – “High Cube” Warehouse is defined by the National Association of Industrial and Office Properties (NAIOP) as follows: A Warehouse/Distribution Center used primarily for the storage and/or consolidation of manufactured goods prior to their distribution to retail locations or other warehouses. These facilities are commonly constructed utilizing tilt-up technique, with a typical ceiling height of at least 24 feet. “High Cube” Warehouse/Distribution Centers are generally greater than 100,000 sq. ft. in size with a land coverage ration of approximately 50% and a dock-high loading ratio of approximately 1 dock per 5,000-10,000 sq. ft. of warehouse storage. They are characterized by a small employment count due to a high level of automation, which reduces air quality and traffic impacts.
4. Revisions. Any proposed change to the approved use/activity on the site (e.g. from warehouse to manufacturing); or any increase in the developed area of the site or any expansion or modification to the approved facilities, including changes to structures building locations, elevations, signs, parking allocation, landscaping, lighting, allowable number of occupants (clients and/or employees); or a proposed change in the conditions of approval, including operational restrictions from those shown either on the approved site plan and/or in the conditions of approval shall require that an additional land use application (e.g. Revision to an Approved Action) be submitted to County Planning for review and approval obtained.
5. Continuous Effect/Revocation. All of the conditions of this project are continuously in effect throughout the operative life of the project for the use approved. Failure of the property owner, tenant, applicant, developer or any operator (herein “developer”) to comply with any or all of the conditions at any time may result in a public hearing and revocation of the approved land use, provided adequate notice, time and opportunity is provided to the property owner or other party to correct the non-complying situation.
6. Expiration. This project permit approval shall expire and become void if it is not “exercised” within three (3) years of the effective date of this approval, unless an extension of time is approved. The permit is deemed “exercised” when either:
 - a) The permittee has commenced actual construction or alteration under a validly issued building permit, or
 - b) The permittee has substantially commenced the approved land use or activity on the project site, for those portions of the project not requiring a building permit. (SBCC §86.06.060)Occupancy of completed structures and operation of the approved and exercised land use remains valid continuously for the life of the project and the approval runs with the land, unless one of the following occurs:
 - a) Construction permits for all or part of the project are not issued or the construction permits expire before the structure is completed and the final inspection is approved.

- b) The land use is determined by the County to be abandoned or non-conforming.
- c) The land use is determined by the County to be not operating in compliance with these conditions of approval, the County Code, or other applicable laws, ordinances or regulations. In these cases, the land use may be subject to a revocation hearing and possible termination.

PLEASE NOTE: This will be the ONLY notice given of the approval expiration date. The “developer” is responsible to initiate any Extension of Time application.

- 7. Extension of Time. Extensions of time to the expiration date (listed above or as otherwise extended) may be granted in increments each not to exceed an additional three years beyond the current expiration date. An application to request consideration of an extension of time may be filed with the appropriate fees no less than thirty days before the expiration date. Extensions of time may be granted based on a review of the application, which includes a justification of the delay in construction and a plan of action for completion. The granting of such an extension request is a discretionary action that may be subject to additional or revised conditions of approval or site plan modifications. (SBCC §86.06.060)
- 8. Development Impact Fees. Additional fees may be required prior to issuance of development permits. Fees shall be paid as specified in adopted fee ordinances.
- 9. Indemnification. In compliance with SBCC §81.01.070, the developer shall agree, to defend, indemnify, and hold harmless the County or its “indemnitees” (herein collectively the County’s elected officials, appointed officials (including Planning Commissioners), Zoning Administrator, agents, officers, employees, volunteers, advisory agencies or committees, appeal boards or legislative body) from any claim, action, or proceeding against the County or its indemnitees to attack, set aside, void, or annul an approval of the County by an indemnitee concerning a map or permit or any other action relating to or arising out of County approval, including the acts, errors or omissions of any person and for any costs or expenses incurred by the indemnitees on account of any claim, except where such indemnification is prohibited by law. In the alternative, the developer may agree to relinquish such approval.

Any condition of approval imposed in compliance with the County Development Code or County General Plan shall include a requirement that the County acts reasonably to promptly notify the developer of any claim, action, or proceeding and that the County cooperates fully in the defense. The developer shall reimburse the County and its indemnitees for all expenses resulting from such actions, including any court costs and attorney fees, which the County or its indemnitees may be required by a court to pay as a result of such action.

The County may, at its sole discretion, participate at its own expense in the defense of any such action, but such participation shall not relieve the developer of their obligations under this condition to reimburse the County or its indemnitees for all such expenses.

This indemnification provision shall apply regardless of the existence or degree of fault of indemnitees. The developer's indemnification obligation applies to the indemnitees' "passive" negligence but does not apply to the indemnitees' "sole" or "active" negligence or "willful misconduct" within the meaning of Civil Code Section 2782.

10. NOD/MND/CDFG Fees. The California Environmental Quality Act (CEQA) requires that an environmental determination be prepared for this project. County staff completed an environmental initial study for this project and properly circulated it for review. This study represents the independent judgment of the County acting as lead agency for the project. The project will not have a significant adverse impact on the environment with the implementation of all the required conditions of approval and mitigation measures. A Mitigated Negative Declaration (MND) will be issued indicating that all identified impacts were found to be mitigated below a level of significance. A Notice of Determination (NOD) of this finding is required to be filed with a fee (currently \$50). The California Department of Fish and Wildlife (CDFW) requires that an additional fee (currently \$2156.25) be paid with the NOD filing, unless CDFG issues a determination of "No Biological Effect". The combined fees (\$2,206.25) are required to be paid to the Clerk of the Board with the NOD filing. The project approval does not become effective, until these fees are paid and the filing is posted.
11. Project Account. The Job Costing System (JCS) account number is P201300214. This is an actual cost project with a deposit account to which hourly charges are assessed by various county agency staff (e.g. Land Use Services, Public Works and County Counsel). Upon notice, the "developer" shall deposit additional funds to maintain or return the account to a positive balance. The "developer" is responsible for all expenses charged to this account. Processing of the project shall cease, if it is determined that the account has a negative balance and that an additional deposit has not been made in a timely manner. A minimum balance of \$1000.00 shall be in the project account at the time of project approval and the initiation of the Condition Compliance Review. Sufficient funds shall remain in the account to cover all estimated charges that may be made during each compliance review. All fees required for processing shall be paid in full prior to final inspection, occupancy and/or operation of each approved use in each approved structure or land use activity area. There shall be sufficient funds (\$500.00) remaining in the account to properly fund file closure and any other required post-occupancy compliance review and inspection requirements (e.g. landscape performance).

12. Condition Compliance. In order to obtain construction permits for grading, or any new building, final inspection, the developer shall process a Condition Compliance Release Form (CCRF) for each respective building and/or phase of the development through County Planning in accordance with the directions stated in the Approval letter. County Planning shall release their holds on each phase of development by providing to County Building and Safety the following:
- Grading Permits - a copy of the signed CCRF for grading/land disturbance and two "red" stamped and signed approved copies of the grading plans.
 - Building Permits - a copy of the signed CCRF for building permits and three "red" stamped and signed approved copies of the final approved site plan.
 - Final Inspection - a copy of the signed CCRF for final inspection of each respective building, after an on-site compliance inspection by County Planning.
 - Tenant Occupancy - a copy of the signed CCRF for tenant occupancy of each respective building, after an on-site compliance inspection by County Planning.
13. Additional Permits. The property owner, developer, and land use operator are all responsible to ascertain and comply with all laws, ordinances, regulations and any other requirements of Federal, State, County and Local agencies as are applicable to the development and operation of the approved land use and project site. These include:
- a) FEDERAL: Federal Aviation Administration
 - b) STATE: Regional Water Quality Control Board (RWQCB) – Santa Ana Region, South Coast Air Quality Management District (AQMD).
 - c) COUNTY: Land Use Services-Building and Safety/Code Enforcement, County Fire; Public Health-Environmental Health Services (DEHS), Public Works, AND
 - d) LOCAL: Local Agency Formation Commission (LAFCO), San Bernardino International Airport Authority (Avigation Easement), Special Districts CSA 70, Improvement Zone EV-1, City of Redlands by special agreement provides water, sewer, sanitation, police and fire services to this area
14. Continuous Maintenance. The property owner and "developer" shall continually maintain the property so that it is visually attractive and not dangerous to the health, safety and general welfare of both on-site users (e.g. employees) and surrounding properties. The "developer" shall ensure that all facets of the development are regularly inspected, maintained and that any defects are timely repaired. Among the elements to be maintained, include but are not limited to:
- a) Annual maintenance and repair inspections shall be conducted for all structures, fencing/walls, walks, parking lots, driveways, and signs to assure proper structural, electrical and mechanical safety and a properly operating irrigation system.
 - b) Graffiti and debris shall be removed immediately with weekly maintenance.
 - c) Landscaping shall be maintained in a continual healthy thriving manner at proper height for required screening. Drought-resistant, fire retardant

- vegetation shall be used where practicable. Where landscaped areas are irrigated, it shall be done in a manner designed to conserve water, minimizing aerial spraying.
- d) Erosion control measures shall be maintained to reduce water run off, siltation, and promote slope stability.
 - e) Architectural controls shall be enforced by the property owner to maintain compatibility of theme, materials, unfaded colors, building mass, size and height.
 - f) External Storage, loading, recycling and trash storage areas shall be kept neat, orderly, and fully screened from public view with a solid masonry wall not less than 6 feet in height. The wall shall include sight-obscuring gates. The solid wall(s) and gate(s) shall be continuously maintained in good repair. Commercial outside storage shall be fully screened from public view and not exceed the height of screening walls. No outdoor storage is allowed within any required setback.
 - g) Metal Storage Containers shall be screened by landscaping or other means.
 - h) Signage. All on-site signs, including posted area signs (e.g. "No Trespassing") shall be maintained in a clean readable condition at all times and all graffiti and vandalism shall be removed and repaired on a regular weekly basis. Signs on the site shall be of the size and general location as shown on the approved site plan or an approved sign plan.
 - i) Parking and on-site circulation requirements, including surfaces, all markings and traffic/directional signs shall be maintained in an unfaded condition as identified on the approved site plan. Any modification to parking and access layout requires County review and approval. The markings and signs shall be clearly defined and legible. These include parking spaces, disabled space and access path of travel, directional designations and signs, stop signs, pedestrian crossing, speed humps "No Parking" "carpool" and "Fire Lane" designations.
15. Performance Standards. The approved land uses shall operate in compliance with the general performance standards listed in the County Development Code Chapter 83.01, regarding air quality, electrical disturbance, fire hazards (storage of flammable or other hazardous materials), heat, noise, vibration and the disposal of liquid waste. In addition to these, none of the following shall be perceptible without instruments at any point outside the project boundaries at adjoining property lines:
- Odors: No offensive or objectionable odor
 - Emissions: No emission of dirt, dust, fly ash, and other forms of particulate matter.
 - Smoke: No smoke from any project source shall be emitted of a greater density than that described in No. 2 on the Ringelmann Chart (as published currently by the United States Bureau of Mines)
 - Radiation: No dangerous amount of radioactive emissions.
 - Toxic Gases: No emission of toxic, noxious or corrosive fumes of gases.

- Glare: No intense glare that is not effectively screened from view at any point outside the project boundary.
16. Lighting. The glare from any luminous source, including on-site lighting shall not exceed one-half (0.5) foot-candle at property line. All lighting shall be limited to that necessary for maintenance activities and security purposes. This is to allow minimum obstruction of night sky remote area views. No light shall project onto adjacent roadways in a manner that interferes with on-coming traffic. All signs proposed by this project shall only be lit by steady, stationary, shielded light directed at the sign, by light inside the sign, by direct stationary neon lighting or in the case of an approved electronic message center sign alternating no more than once every five seconds.
 17. Clear Sight Triangle. Adequate visibility for vehicular and pedestrian traffic shall be provided at clear sight triangles at all 90 degree angle intersections of public rights-of-way and private driveways. All signs, structures and landscaping located within any clear sight triangle shall comply with the height and location requirements specified by County Development Code (SBCC§ 83.02.030) or as otherwise required by County Traffic.
 18. Underground Utilities. There shall be no new above ground power or communication lines extended to the site. All new utilities shall be placed underground in a manner, which avoids disturbing any existing/natural vegetation or the site appearance. Existing utilities around the site perimeter shall also be placed underground, where possible in coordination with the utility provider.
 19. Operational Security. Implementation of operational security measures for commercial and industrial uses is highly recommended to include video surveillance and security patrols during non-business hours. The installation of exterior security lighting for all public areas in compliance with any night sky regulations is encouraged. This will assist in crime prevention and detection.
 20. Access. The access point to the facility shall remain unobstructed at all times, except a driveway access gate, which may be closed after normal working hours.
 21. Commercial Vehicles. *The applicant, developer and tenant shall require that all commercial vehicles operating on site and at loading docks shall limit idling to 5 minutes or less per trip. (1 point)*
 22. AR3 Operational Requirements. The project site is within an Airport Safety Review Area Three (AR3) Overlay, therefore the following standards and criteria shall apply to all operations, structures, and land uses:
 - a) All structures and land uses shall be designed and operated so that they shall not reflect glare, emit electronic interference, produce smoke, or store or dispense hazardous materials in such a manner that would endanger aircraft operations or public safety in the event of an aircraft accident.

- b) Vegetation shall be maintained not to exceed the height limitations established in Federal Aviation Regulations (FAR) Part 77, unless otherwise provided by Form 7460-1)
 - c) The “developer”/property owner shall include with all lease and rental agreements and separately to all renters, tenants, lessees or buyers; information that the site is subject to aircraft overflight from the appropriate airport, is subject to the potential noise problems associated with aircraft operations, and is subject to an Avigation and Noise Easement.
 - d) Proposed uses and structures shall be consistent with the San Bernardino International Airport Comprehensive Land Use Plan (ACLUP).
23. AQ/Operational. The “developer” shall implement the following air quality mitigation measures, during operation of the approved land use: All on-site equipment and vehicles (off-road/ on-road), shall comply with the following:
- a) County Diesel Exhaust Control Measures [SBCC §83.01.040 (c)]
 - b) Signs shall be posted requiring all vehicle drivers and equipment operators to turn off engines when not in use.
 - c) All engines shall not idle more than five minutes in any one-hour period on the project site. This includes all equipment and vehicles.
 - d) Engines shall be maintained in good working order to reduce emissions.
 - e) Ultra low-sulfur diesel fuel shall be utilized.
 - f) Electric, CNG and gasoline-powered equipment shall be substituted for diesel-powered equipment, where feasible.
 - g) On-site electrical power connections shall be made available, where feasible.
 - h) All transportation refrigeration units (TRU's) shall be provided electric connections, when parked on-site.

LAND USE SERVICES - Code Enforcement (909) 387-4044

24. Enforcement. If any County agency is required to enforce compliance with the conditions of approval, the property owner and “developer” shall be charged for such enforcement activities in accordance with the County Code Schedule of Fees. Failure to comply with these conditions of approval or the approved site plan design required for this project approval shall be enforceable against the property owner and “developer” (by both criminal and civil procedures) as provided by the San Bernardino County Code, Title 8 - Development Code; Division 6 - Administration, Chapter 86.09 - Enforcement.
25. Weed Abatement. The developer shall comply with San Bernardino County weed abatement regulations [SBCC§ 23.031-23.043] and periodically clear the site of all non-complying vegetation. This includes removal of all Russian thistle (tumbleweeds).

PUBLIC HEALTH - Environmental Health Services (DEHS) (909) 387-4666

26. Noise. Noise level shall be maintained at or below County Development Code Standards, Section 83.01.080. For information, please call DEHS at 909-387-4666.
27. Refuse Storage/Removal. All refuse generated at the premises shall at all times be stored in approved containers and shall be placed in a manner so that environmental public health nuisances are minimized. All refuse not containing garbage shall be removed from the premises at least 1 time per week, or as often as necessary to minimize public health nuisances. Refuse containing garbage shall be removed from the premises at least 2 times per week, or as often if necessary to minimize public health nuisances, by a permitted hauler to an approved solid waste facility in conformance with San Bernardino County Code Chapter 8, Section 33.0830 et. seq. For information, please call DEHS/LEA at: 909-387-4655.

COUNTY FIRE - Community Safety (909) 386-8465

28. Fire Jurisdiction. The above referenced project is under the jurisdiction of the San Bernardino County Fire Department herein ("Fire Department"). Prior to any construction occurring on any parcel, the developer shall contact the Fire Department for verification of current fire protection requirements. All new construction shall comply with the current Uniform Fire Code requirements and all applicable statutes, codes, ordinances and standards of the Fire Department.
29. Additional Requirements. In addition to the Fire requirements stated herein, other on site and off site improvements may be required which cannot be determined from tentative plans at this time and would have to be reviewed after more complete improvement plans and profiles have been submitted to this office.

LAND USE SERVICES - Land Development – Drainage (909) 387-8311

30. Tributary Drainage. Adequate provisions should be made to intercept and conduct the tributary off site - on site drainage flows around and through the site in a manner, which will not adversely affect adjacent or downstream properties at the time the site is developed.
31. Additional Drainage Requirements. In addition to drainage requirements stated herein, other "on-site" and/or "off-site" improvements may be required which cannot be determined from tentative plans at this time and would have to be reviewed after more complete improvement plans and profiles have been submitted to this office.

32. Natural Drainage. The natural drainage courses traversing the site shall not be occupied or obstructed.
33. Continuous BMP Maintenance. The property owner/"developer" is required to provide periodic and continuous maintenance of all Best Management Practices (BMP) devices/facilities listed in the County approved Water Quality Management Plan (WQMP) for the project. This includes but is not limited to, filter material replacement and sediment removal, as required to assure peak performance of all BMPs. Furthermore, such maintenance activity will require compliance with all Local, State, or Federal laws and regulations, including those pertaining to confined space and waste disposal methods in effect at the time such maintenance occurs.
34. BMP Enforcement. In the event the property owner/"developer" (including any successors or assigns) fails to accomplish the necessary BMP maintenance within five (5) days of being given written notice by County Public Works, then the County shall cause any required maintenance to be done. The entire cost and expense of the required maintenance shall be charged to the property owner and/or "developer", including administrative costs, attorney's fees and interest thereon at the rate authorized by the County Code from the date of the original notice to the date the expense is paid in full.

DEPARTMENT OF PUBLIC WORKS - Traffic Division (909) 387-8186

35. Access. The project vehicles shall not back out into the public roadway.
36. Right in/right out. The project driveways along San Bernardino Avenue will be restricted to right in/right out only.

LAND USE SERVICES - Land Development – Roads (909) 387-8311

37. Road Standards. All required street improvements shall comply with latest San Bernardino County Road Planning and Design Standards and the San Bernardino County Standard Plans.

PUBLIC WORKS - Survey Division (909) 387-8145

38. Record of Survey. A Record of Survey/Corner Record shall be filed pursuant to applicable sections of the Business and Professions Code.
39. Monumentation. If any activity on this project will disturb any land survey monumentation, including but not limited to vertical control points (benchmarks), said monumentation shall be located and referenced by or under the direction of a licensed land surveyor or registered civil engineer authorized to practice land surveying prior to commencement of any activity with the potential to disturb said monumentation, and a corner record or record of survey of the references shall

be filed with the County Surveyor (Section 8771(b) Business and Professions Code).

PUBLIC WORKS - Solid Waste Management (909) 387-8701

40. Recycling Storage Capacity. The developer shall provide equal space and storage bins for both refuse and recycling materials. This requirement is to assist the County in compliance with the recycling requirements of AB 2176.

41. Mandatory Commercial Recycling. Beginning July 1, 2012 all businesses defined to include a commercial or public entity that generates 4 or more cubic yards of commercial solid waste a week or is a multi-family residential dwelling of 5 units or more to arrange for recycling services. The County is required to monitor business recycling and will require the business to provide recycling information. This requirement is to assist the County in compliance with the recycling requirements of AB 341. (2 points)

42. Mandatory Commercial Trash Service. This project falls within a Uniform Handling Service area. If uniform handling service is implemented for all or part of a particular franchise area, all owners of a dwelling or a commercial or industrial unit within the uniform handling area who are required to have uniform handling service shall, upon notice thereof, be required to accept uniform handling service from the grantee holding a franchise agreement and pay the rate of such services. This requirement is a stipulation of County Code Title 4, Division 6, Chapter 5, Section 46.0501.

PRIOR TO ISSUANCE OF GRADING PERMITS

The following shall be completed:

LAND USE SERVICES - Building and Safety (909) 387- 4246

43. Soils Report. When earthwork quantities exceed 5,000 cubic yards, a new/updated geotechnical (soil) report shall be submitted to the Building and Safety Division for review and approval prior to issuance of grading permits.
44. Geologic Feasibility Report. A geologic feasibility report shall be submitted to the Building and Safety Division for review and approval by the County Geologist and fees paid for the review prior to issuance of grading permits.
45. Grading Plans. If grading exceeds fifty (50) cubic yards, approved plans will be required.
46. NPDES. An NPDES permit - Notice of Intent (NOI) - is required on all grading of one (1) acre or more prior to issuance of a grading/construction permit. The WDID number issued by the Regional Water Quality Control Board will be required as evidence of filing the NOI.

LAND USE SERVICES - Planning (909) 387- 8311

47. Tree Removal. *A pre-construction inspection shall be required to verify the location and number of any locally-protected trees, including linear rows of palms along the street frontage. All healthy Mexican fan palm trees shall be relocated to an acceptable location, consistent with an approved landscape plan with the assistance of a certified arborist who shall submit a letter report documenting the transportation of all trees.*
48. AQ-Dust Control Plan. *The "developer" shall prepare, submit for review and obtain approval from County Planning of both a Dust Control Plan (DCP) consistent with SCAQMD guidelines and a signed letter agreeing to include in any construction contracts/ subcontracts a requirement that project contractors adhere to the requirements of the DCP. The DCP shall include the following requirements:*
 - a) *Exposed soil shall be kept continually moist to reduce fugitive dust during all grading and construction activities, through application of water sprayed a minimum of two times each day.*
 - b) *During high wind conditions (i.e., wind speeds exceeding 25 mph), areas with disturbed soil shall be watered hourly and activities on unpaved surfaces shall cease until wind speeds no longer exceed 25 mph.*
 - c) *Storage piles that are to be left in place for more than three working days shall be sprayed with a non-toxic soil binder, covered with plastic or revegetated.*

- d) *Storm water control systems shall be installed to prevent off-site mud deposition.*
- e) *All trucks hauling dirt away from the site shall be covered.*
- f) *Construction vehicle tires shall be washed, prior to leaving the project site.*
- g) *Rumble plates shall be installed at construction exits from dirt driveways.*
- h) *Paved access driveways and streets shall be washed and swept daily when there are visible signs of dirt track-out.*
- i) *Street sweeping shall be conducted daily when visible soil accumulations occur along site access roadways to remove dirt dropped or tracked-out by construction vehicles. Site access driveways and adjacent streets shall be washed daily, if there are visible signs of any dirt track-out at the conclusion of any workday and after street sweeping.*

[Mitigation Measure III-2] Prior to Grading Permit/Planning

49. Cultural Resources. The developer/property owner shall submit for review and obtain approval from County Planning of a letter agreeing to adhere to the following requirements and to include in any construction contracts/subcontracts a provision that project contractors shall also adhere to the following requirements:
- If archaeological, paleontological and/or historical resources are uncovered during ground disturbing activities, all work in that area shall cease immediately until written clearance by County Planning is provided indicating that satisfactory mitigation has been implemented. A qualified expert (e.g. archaeologist or paleontologist), as determined by County Planning in consultation with the County Museum shall be hired to record the find and recommend any further mitigation. The developer shall implement any such additional mitigation to the satisfaction of County Planning.
 - If human remains are uncovered during ground disturbing activities, the San Bernardino County Coroner shall be contacted within 24 hours of the find. If the remains or cultural artifacts are determined to be of Native American origin, the local Native American representative shall also be notified.

LAND USE SERVICES - Land Development – Drainage (909) 387-8311

50. Drainage Facility Design. A Registered Civil Engineer shall investigate and design adequate drainage facilities to intercept and conduct the off-site and on-site drainage flows around and through the site in a manner, which will not adversely affect adjacent or downstream properties. Submit drainage study for review and obtain approval. A \$520 deposit for drainage study review will be collected upon submittal to the Land Development Division.

51. Storm Drain Facility. Design a storm drain facility per latest Comprehensive Storm Drainage Plan. Submit storm drain plans for review and approval.
52. Topo Map. A topographic map shall be provided to facilitate the design and review of necessary drainage facilities.
53. Grading Plans. Grading plans shall be submitted for review and approval obtained. A \$520 deposit for grading plan review will be collected upon submittal to the Land Development Division.
54. Permit. A permit, or authorized clearance, shall be obtained from Land Development Division prior to issuance of a grading permit by County Building and Safety.
55. Natural Drainage. The natural drainage courses traversing the site shall not be occupied or obstructed.
56. WQMP. A completed Water Quality Management Plan (WQMP) shall be submitted for review and approval obtained. A \$2,500 deposit for WQMP review will be collected upon submittal to the Land Development Division. Copies of the WQMP guidance and template can be found at:
http://www.sbcounty.gov/dpw/land/environmental_mgmt.asp
57. WQMP Inspection Fee. The developer shall deposit an inspection fee for WQMP in the amount of \$3,600 to Land Development Division.

PUBLIC WORKS - Solid Waste Management (909) 387-8701

58. C&D Plan – Part 1. The developer shall prepare, submit, and obtain approval from Solid Waste Management Division (SWMD) of a “Construction Waste Management Recycling Plan (C&D Plan), Part I” for each phase of the project. The C&D Plan shall list the types and volumes of solid waste materials expected to be generated from grading and construction. The Plan shall include options to divert from landfill disposal materials for reuse or recycling by a minimum of 50% of total volume. Forms can be found on our website at www.sbcounty.gov/dpw/solidwaste.

Upon completion of construction, the developer shall complete SWMD’s C&D Plan Part 2 and shall provide documentation of diversion of materials including but not limited to receipts or letters documenting material types and weights from diversion facilities or certification reuse of materials on site.

COUNTY FIRE - Community Safety (909) 386-8465

59. Water System. Prior to any land disturbance, the water system shall be designed to meet the required fire flow for this development and shall be

approved by the Fire Department. The required fire flow for this development and shall be approved by the Fire Department. The required fire flow shall be determined by using Appendix IIIA of the Uniform Fire Code.

60. Fire Conditions. Construction permits, including Fire Condition Letters, shall automatically expire and become invalid unless the work authorized by such permit is commenced within 180 days after its issuance, or if the work authorized by such permit is suspended or abandoned for a period of 180 days after the time the work is commenced. Suspension or abandonment shall mean that no inspection by the Department has occurred within 180 days of any previous inspection. After a construction permit or Fire Condition Letter, becomes invalid and before such previously approved work recommences, a new permit shall be first obtained and the fee to recommence work shall be one-half the fee for the new permit for such work, provided no changes have been made or will be made in the original construction documents for such work, and provided further that such suspension or abandonment has not exceeded one year. A request to extend the Fire Condition Letter or Permit may be made in writing PRIOR TO the expiration date justifying the reason that the Fire Condition Letter should be extended.

PRIOR TO ISSUANCE OF BUILDING PERMITS

The following shall be completed:

LAND USE SERVICES - Building and Safety (909) 387- 4246

61. Building Plans. Three copies of the proposed professionally prepared building plans shall be submitted for plan review with appropriate fees and approval of these shall be obtained with permits, for any building, sign, or structure (including trash enclosures) to be constructed or located on site.
62. Wall Plans. Submit professionally prepared plans for review and obtain approval with permits for all fences and walls greater than six feet (6') in height and any required walls, retaining walls or trash enclosures.
63. Outdoor Lighting Plans. Three copies of the proposed professionally prepared Outdoor lighting plan shall be submitted for plan review with appropriate fees and approval of these shall be obtained with permits, prior to any lighting installation.
64. Sign Plans. Any building, sign, or structure to be constructed or located on site will require professionally prepared plans approved by the Building and Safety Division.
65. Disabled Access. Provide van accessible parking spaces for the disabled. One in every eight accessible spaces, but not less than one, shall be served by an access aisle 96 inches wide and shall be designated van accessible. The words "NO PARKING" shall be painted on the ground within each eight-foot loading area as specified in the California Building Code.
66. Path of Travel. Provide a path of travel from the disabled parking spaces up to the primary entrance of each accessible building or area.
67. Energy Efficiency for Commercial Development (GHG Reduction Measure R2E7). The developer shall document that the design of the proposed structure exceeds the energy efficiency requirements as indicated below:
 - Insulation – Enhanced Insulation (5% > Title 24) (4 points)
 - Heating and Cooling Distribution System – Modest Distribution Losses (15% > Title 24) (8 points)
 - Space Heating/cooling Equipment – Efficiency HVAC (15% > Title 24) (8 points)
 - Water Heaters – Efficiency Water Heaters (Energy Star conventional that is 5% > Title 24) (4 points)
 - Appliances – Efficient Appliances (5% > Title 24) (4 points)
 - Windows – Enhanced 24) Windows (5% > Title 24) (4 points)
 - Windows – All peripheral rooms shall have at least one window or skylight (1point)

- Doors – Enhanced Doors (5% > Title 24 (4 points)
- Building Envelope Leakage (15%> Title 24 (8 points)
- Artificial Lighting (5%>Title 24 (4 points)

68. Potable Water - Per Capita Water Use Reduction Goal (GHG Reduction Measure R2WC-1). The project shall include the following potable water reduction measures that exceeds the current Title 24 energy efficiency requirements as indicated below::

- The project shall include EPA High Efficiency Showerheads (15% > Title 24) (3 points).
- The project shall include EPA High Efficiency toilets/urinals (15% > Title 24) (3 points).
- The project shall include EPA High Efficiency faucets (15% > Title 24) (3 points).

LAND USE SERVICES - Planning (909) 387-8311

69. East Valley (EV) Guidelines. The project shall adhere to and implement the site design standards/guidelines and the circulation design standards specified in the East Valley Area Plan.

70. Irrigation and Landscaping - Per Capita Water Use Reduction Goal (GHG Reduction Measure R2WC-1). The project shall include the following irrigation and landscaping water reduction measures:

- The project shall include drip irrigation and the installation of a water efficient landscaping system that utilizes a smart irrigation control system, with a demonstrated 20 percent reduced water use (5 points).
- Water efficient landscaping shall be installed that includes no turf (4 points).

71. Building Elevations. The developer shall obtain approval from County Planning for the exterior elevations on all four sides of the proposed building. The elevations shall demonstrate horizontal and vertical elements (e.g. trim design, architectural elements, windows, etc.). All sides of the building, except loading dock areas shall have landscape planters adjacent to the building walls. The use of trellises, arbors, planters and atriums is encouraged. All walls shall be shown and approved by County Planning prior to construction. All new proposed structures and their related elements shall be painted, treated, or otherwise finished to blend in to the surrounding existing architectural theme. Screening materials shall blend into adjacent architectural elements. All roof mounted mechanical equipment shall be screened from view and shall be painted to match the roof color.
