Commissioner Planning Commission,

Dear County of San Bernardino County Planning Commission and Board of Supervisors,

I am strongly opposed to the proposed Bloomington Business Park Specific Plan Project.

If approved, this project will change the makeup of Bloomington and our lifestyle of raising livestock. The Bloomington Business Park's significant environmental impacts are detrimental to the health and well-being of our community's children, seniors, and families. Therefore, I urge you to represent the interests of the constituents you serve.

Commissioner Planning Commission,

Dear County of San Bernardino County Planning Commission and Board of Supervisors,

I am strongly opposed to the proposed Bloomington Business Park Specific Plan Project.

If approved, this project will change the makeup of Bloomington and our lifestyle of raising livestock. The Bloomington Business Park's significant environmental impacts are detrimental to the health and well-being of our community's children, seniors, and families. Therefore, I urge you to represent the interests of the constituents you serve.

Bloomington is home to a diverse group of working-class families who have formed a vibrant community with strong ties to rural living and self-sufficient farming practices. However, once known for its quaint small-town lifestyle in harmony with the natural world, Bloomington has experienced a massive influx of warehouse development, and an ever-growing sea of concrete is consuming our green open spaces. This evident change to the fabric of our community has fueled strong public opposition to the Bloomington Business Park Project and the dangerous growth of warehouse developments next to homes, schools, and parks. If the fate of the Bloomington Business Park Project were at the hands of our community members, this project would not be an agenda item. The community would have promptly rejected the project with direction to the County Planning Division and prioritized developments focused on creating community and fostering a safe and healthy ecosystem where Bloomington residents can ride, work and play because warehouses are not what community members have requested, and certainly not what they deserve.

Therefore, I remind you of what will be irreversibly lost if the Bloomington Business Park Project is accepted. Over 213 acres of residential and agricultural land will be lost to industrial space less than 100 ft. to three public schools (Bloomington High School, Ruth O Harris Middle School, and Walter Zimmerman Elementary School). Our pedestrian and equestrian public spaces will be negatively impacted by an estimated 9,000 vehicle and truck trips on roads in the heart of the community. Undoubtedly, the vibrant and colorful neighborhoods we value will be replaced by changing the character and values of our community. Families in our neighborhoods will experience displacement.

It is my unwavering position that the County of San Bernardino Planning Commissioners and

Board of Supervisors unequivocally oppose the Bloomington Business Park Specific Plan. I ask that you consider alternatives to warehouse projects through outreach and a civic engagement process to collaborate with Bloomington community members to create and implement planning that will allow its residents to enjoy a better quality of life now and for generations to come.

I acknowledge that by sending this letter, I am sharing my name, email, zip code, and any other contact information I want to share with the San Bernardino Planning Commissioners, Board of Supervisors, and my information will be part of the public record.

Commissioner Planning Commission,

No more warehouse in Bloomington. Commutes for residence is getting ridiculously long. It should not take me 25 minutes to go to Stater Brothers down the street from my house because there's numerous four wheelers trying to cross one stop sign on top of school traffic. I will wait 30 minutes to cross over to Rialto area because there is one freeway entrance for all for wheelers to get onto the freeway or to get to the warehouses for their destination. It's really inconvenient and unsafe. Bloomington is becoming too congested! we have kids in this community, pets in this community, elderly in this community. No to add the cost of living in California the housing crisis that is happening in counties surrounding us where do you expect us to go ... We need the city to be fixed  
, roads to be fixed, stores to be added not warehouses!

Please reconsider this project!  
A concerning resident in Bloomington.

Commissioner Planning Commission,

I been a resident of Bloomington for 15 years I am so disappointed at the condition the residents are being force to live in. First pollution, second outrageous traffic, not enough police to control the outrage drivers that endanger the streets. Speaking about danger please take in consideration the students that are going to suffer the consequences Trucks driving through school zones. Schools being destroyed. Residents want to keep their houses, their rural streets, their small town. Stop this ridiculous project.

Commissioner Planning Commission,

Dear County of San Bernardino County Planning Commission and Board of Supervisors,

I am strongly opposed to the proposed Bloomington Business Park Specific Plan Project.

As I've lived here my whole life and seeing my parents and grand parents build for the community, attend school in the community and 3 generations of purchasing homes in this community, re-zoning our community and others homes impedes a loss as this displaces many.

If approved, this project will change the makeup of Bloomington and our lifestyle of raising livestock. The Bloomington Business Park's significant environmental impacts are detrimental to the health and well-being of our community's children, seniors, and families. Therefore, I urge you to represent the interests of the constituents you serve.

Bloomington is home to a diverse group of working-class families who have formed a vibrant community with strong ties to rural living and self-sufficient farming practices. Commissioner Planning Commission,

I am against this warehouse I already live near a lot of warehouses. Riverside county is building their own Agua Mansa business park down the street there aren't enough cross streets to cross over the railroad track and interstate 10 freeway I already have multiple trailers passing by my house. My son always has nose bleeds now and my daughter's asthma got worse she now needs her inhaler every day. We have enough warehouses you guys are not thinking this through you guys don't pass through the streets you guys don't see the pot holes the emissions the traffic from the workers. Half of the people don't live in Bloomington. It is not creating jobs STOP ASSUMING we only have a career or education in working at a warehouse. Make a crossover bridge make stores, make charging stations thats what we need.

Commissioner Planning Commission,

I am a new mother and a new home owner. Bloomington is where I live with my family and I want a safe and clean place for my son to grow. These warehouses and trucks not only make traffic horrible (most roads in Bloomington are one lane) the damage to the roads and air quality are the worst. Our streets are already messed up from the current trucks and traffic more will make them crumble. Please protect my home and the home of all the new families who are just starting out

Commissioner Planning Commission,

Dear County of San Bernardino County Planning Commission and Board of Supervisors,

I am strongly opposed to the proposed Bloomington Business Park Specific Plan Project. As someone that has seen this type of development project destroy the fabric of our communities in La Puente, I am writing to inform you of the public health dangers you are subjecting the residents of Bloomington to have to endure.

Not only will this project irrevocably destroy the community but it will have long lasting impacts. The inland empire is already one of the regions with the worst air quality. Small agricultural communities are being destroyed overnight as part of a transit corridor that caters to speculators and commercial development. This is not consistent not representative of the community.

Bloomington is home to a diverse group of working-class families who have formed a vibrant community with strong ties to rural living and self-sufficient farming practices.

The Bloomington Business Park Project and the dangerous growth of warehouse developments next to homes, schools, and parks is a dangerous development project during a record drought and record heat wave. Our communities are filled with heat islands, and the agricultural spaces that help offset these heat islands and restore our aquifers are being demolished seemingly overnight. If the fate of the Bloomington Business Park Project were at the hands of our community members, this project would not be an agenda item. The community would have promptly rejected the project with direction to the County Planning Division and prioritized developments focused on creating community and fostering a safe and healthy ecosystem where Bloomington residents can ride, work and play because warehouses are not what community members have requested, and certainly not what they deserve.

These projects are within 100 ft. Of three public schools (Bloomington High School, Ruth O Harris Middle School, and Walter Zimmerman Elementary School). Our pedestrian and equestrian public spaces will be negatively impacted by an estimated 9,000 vehicle and truck trips on roads in the heart of the community. Undoubtedly, the vibrant and colorful neighborhoods we value will be replaced by changing the character and values of our community. Families in our neighborhoods will experience displacement.

It is my unwavering position that the County of San Bernardino Planning Commissioners and Board of Supervisors unequivocally oppose the Bloomington Business Park Specific Plan. I ask that you consider alternatives to warehouse projects through outreach and a civic engagement process to collaborate with Bloomington community members to create and implement planning that will allow its residents to enjoy a better quality of life now and for generations to come.

I acknowledge that by sending this letter, I am sharing my name, email, zip code, and any other contact information I want to share with the San Bernardino Planning Commissioners, Board of Supervisors, and my information will be part of the public record.

Best,

Samuel Brown-Vazquez

Commissioner Planning Commission,

Growing up in Bloomington, I fell in love with the people and culture of its residents. I know people whose families have lived there for decades and have such a strong connection and love to the community. They are actively making the town a better place for everyone in it, and the Bloomington Business Park Specific Plan Project will erase years of effort and dedication to the betterment of the residents' lives. Especially with Bloomington being a lower-income area full of minorities and marginalized groups, this plan will force residents to relocate to a more expensive area where they will experience much more hardships and have to watch the community they built be destroyed. Please have some empathy and humanity towards the people of Bloomington and reconsider going through with this project.

Commissioner Planning Commission,

Bloomington is a special place where people can still raise livestock and grow crops on their land. It's a special kind of lifestyle. Building all of these warehouses takes away from the farm feel as well as pollutes our air and the lungs of our growing children.

Commissioner Planning Commission,

To all members of the San Bernardino County Planning Commission & Supervisors,

My name is Tim Fox. Although I do not live in Bloomington, I have numerous friends and family in the area. I am writing to you on their behalf. I am opposed to the proposed construction of Commercial Warehouses in the city. These projects will reduce precious green spaces that the community needs to exercise themselves and animals. The Bloomington Business Park Project will increase traffic in the area, which increases air pollution. The residents of the area are overwhelmingly opposed to this project.

Please stand with the residents of Bloomington: do not support the Bloomington Business Park Project.

Sincerely,  
~Tim Fox

Commissioner Planning Commission,

To whom it may concern,

Bloomington is my home. I may have moved, I may have started a new chapter in a new city, but Bloomington raised me. I grew up in a loving community. I may have moved a year ago, but when I came to visit again yesterday it was almost unrecognizable. Don't destroy my home. Don't destroy the home of others! The house I used to live in had a view of beautiful mountains, lots of trees. Now, when I visit that home and i look behind it I see an amazon warehouse. I can't even enjoy the backyard view because of a wall. Don't do this to more families. Stop taking our home, our culture, and think for a second about the families that are being raised. The children who need to learn their roots. Think about the families and not about the money.

Hey there, I just found your site, quick question...

My name's Eric, I found stopwonderinn.org after doing a quick search – you showed up near the top of the rankings, so whatever you're doing for SEO, looks like it's working well.

So here's my question – what happens AFTER someone lands on your site? Anything?

Research tells us at least 70% of the people who find your site, after a

quick once-over, they disappear... forever.

That means that all the work and effort you put into getting them to show up, goes down the tubes.

Why would you want all that good work – and the great site you've built – go to waste?

Because the odds are they'll just skip over calling or even grabbing their phone, leaving you high and dry.

But here's a thought... what if you could make it super-simple for someone to raise their hand, say, "okay, let's talk" without requiring them to even pull their cell phone from their pocket?

You can – thanks to revolutionary new software that can literally make that first call happen NOW.

Talk With Web Visitor is a software widget that sits on your site, ready and waiting to capture any visitor's Name, Email address and Phone Number. It lets you know IMMEDIATELY – so that you can talk to that lead while they're still there at your site.

You know, strike when the iron's hot!

CLICK HERE <https://boostleadgeneration.com> to try out a Live Demo with Talk With Web Visitor now to see exactly how it works.

When targeting leads, you HAVE to act fast – the difference between contacting someone within 5 minutes versus 30 minutes later is huge – like 100 times better!

That's why you should check out our new SMS Text With Lead feature as well... once you've captured the phone number of the website visitor, you can automatically kick off a text message (SMS) conversation with them.

Imagine how powerful this could be – even if they don't take you up on your offer immediately, you can stay in touch with them using text messages to make new offers, provide links to great content, and build your credibility.

Just this alone could be a game changer to make your website even more effective.

Strike when the iron's hot!

CLICK HERE <https://boostleadgeneration.com> to learn more about everything Talk With Web Visitor can do for your business – you'll be amazed.

Thanks and keep up the great work!

Eric

PS: Talk With Web Visitor offers a FREE 14 days trial – you could be converting up to 100x more leads immediately!

It even includes International Long Distance Calling.

Stop wasting money chasing eyeballs that don't turn into paying customers.

CLICK HERE <https://boostleadgeneration.com> to try Talk With Web Visitor now.

To: Dawn Rowe, Supervisor 3rd District, Michael Stoffel, Planning Commission 3rd District and Azhar Kahn, Planner at Land Use Services (via email). I urge you to deny approval of the Wonder Inn Project, a proposed 106-room luxury resort which would be unprecedented and completely out of scale and character with anything in rural, rustic Wonder Valley. Wonder Valley residents treasure their wild, wide-open, peaceful desert valley for the reasons stated in the WV Community section of the 2020 Countywide Plan: its spacious rural atmosphere, natural desert beauty, and community spirit. It is these values together that represent our greatest asset, attracting visitors and tourist dollars and powering the local economy of low-key small

business. The Wonder Inn Project as proposed would degrade this unique asset and economic engine by impacting the quantity and quality of our irreplaceable water supply, increasing traffic and associated dangers, increasing dust and air pollution, and causing noise pollution as well as light pollution. It would further stress our underfunded and already inadequate local fire and law enforcement resources, impact the community taxpayer-maintained roads, disrupt local wildlife corridors, and worsen the crisis in affordable housing. Establishment of this project, which would include a rezoning of 21 acres from Rural Living to Commercial Services, would set a precedent certain to start Wonder Valley down a road of irreversible damage to what makes this place unique. Please do not approve the Wonder Inn Project. Thank you for listening to my concerns.

Commissioner Planning Commission,

We already have TO MANY warehouses and TRUCKS. I am a 17 year old young lady and I went to BHS high school. There were so many trucks who ran red lights and semi trailer trucks who took over TWO lanes to turn on a street that has a sign that states NO BIG TRUCKS. These trucks are taking over Bloomington. They are going to be down the street from an ELEMENTARY SCHOOL. I don't know how people can think this is okay and safe. It is NOT OKAY. People want Bloomington to be the old town it USED to be now it's all used for your trucking stops and warehouses!!?? STOP BUILDING FOR THE SAKE OF CHILDREN AND PEOPLE. MOVE SOMEWHERE ELSE.

Commissioner Planning Commission,

Im a student at bloomington high school and having seen the sudden changes in our community has shocked me. I understand one or two warehouses but buying an elementary school that has been in a community for years is heartbreaking. Not to mention the closing off of a local mountain near streets 12- 7th where many of the bloomington community would go for years simply to walk or pass time with family. I genuinely hope construction is limited. The continuing of construction will push and pressure families into moving away, school traffic will dramatically increase as if it wasn't already enough. It may not affect the rich warehouse owners but it affects families and students that are just trying to get on with their daily lives. Our community is fine the way it is.

Commissioner Planning Commission,

Bloomington is a small town already and flooding it with trucks and warehouses especially next to schools puts children at risk. Leave Bloomington habitable please! When I'm off to bigger things I want a place to come back to. A place that will still exist even just a couple years down the line. Warehouses, trucks and factories are also the cause of the highest copd rates being in san bernardino county than surrounding areas. Please leave Bloomington alone.

Commissioner Planning Commission,

Dear County of San Bernardino County Planning Commission and Board of Supervisors,

I am strongly opposed to the proposed Bloomington Business Park Specific Plan Project.

If approved, this project will change the makeup of Bloomington and our lifestyle of raising livestock. The Bloomington Business Park's significant environmental impacts are detrimental to the health and well-being of our community's children, seniors, and families. Therefore, I urge you to represent the interests of the constituents you serve.

Bloomington is home to a diverse group of working-class families who have formed a vibrant community with strong ties to rural living and self-sufficient farming practices. However, once known for its quaint small-town lifestyle in harmony with the natural world, Bloomington has experienced a massive influx of warehouse development, and an ever-growing sea of concrete is consuming our green open spaces. This evident change to the fabric of our community has fueled strong public opposition to the Bloomington Business Park Project and the dangerous growth of warehouse developments next to homes, schools, and parks. If the fate of the Bloomington Business Park Project were at the hands of our community members, this project would not be an agenda item. The community would have promptly rejected the project with direction to the County Planning Division and prioritized developments focused on creating community and fostering a safe and healthy ecosystem where Bloomington residents can ride, work and play because warehouses are not what community members have requested, and certainly not what they deserve.

Therefore, I remind you of what will be irreversibly lost if the Bloomington Business Park Project is accepted. Over 213 acres of residential and agricultural land will be lost to industrial space less than 100 ft. to three public schools (Bloomington High School, Ruth O Harris Middle School, and Walter Zimmerman Elementary School). Our pedestrian and equestrian public spaces will be negatively impacted by an estimated 9,000 vehicle and truck trips on roads in the heart of the community. Undoubtedly, the vibrant and colorful neighborhoods we value will be replaced by changing the character and values of our community. Families in our neighborhoods will experience displacement.

It is my unwavering position that the County of San Bernardino Planning Commissioners and

Board of Supervisors unequivocally oppose the Bloomington Business Park Specific Plan. I ask that you consider alternatives to warehouse projects through outreach and a civic engagement process to collaborate with Bloomington community members to create and implement planning that will allow its residents to enjoy a better quality of life now and for generations to come.

I acknowledge that by sending this letter, I am sharing my name, email, zip code, and any other contact information I want to share with the San Bernardino Planning Commissioners, Board of Supervisors, and my information will be part of the public record.

Commissioner Planning Commission,

Our small community of Bloomington has already been impacted by the 10 plus warehouses that have been built. Traffic was already an issue before and it is more so now with commercial semi trucks taking over the streets. Don't make people that have set roots down move somewhere else. We have history and agriculture here no more warehouses enough is enough.

Commissioner Planning Commission,

Dear County of San Bernardino County Planning Commission and Board of Supervisors,

I am strongly opposed to the proposed Bloomington Business Park Specific Plan Project.

If approved, this project will change the makeup of Bloomington and our lifestyle of raising livestock. The Bloomington Business Park's significant environmental impacts are detrimental to the health and well-being of our community's children, seniors, and families. Therefore, I urge you to represent the interests of the constituents you serve.

Bloomington is home to a diverse group of working-class families who have formed a vibrant community with strong ties to rural living and self-sufficient farming practices. However, once known for its quaint small-town lifestyle in harmony with the natural world, Bloomington has experienced a massive influx of warehouse development, and an ever-growing sea of concrete is consuming our green open spaces. This evident change to the fabric of our community has fueled strong public opposition to the Bloomington Business Park Project and the dangerous growth of warehouse developments next to homes, schools, and parks. If the fate of the Bloomington Business Park Project were at the hands of our community members, this project would not be an agenda item. The community would have promptly rejected the project with direction to the County Planning Division and prioritized developments focused on creating community and fostering a safe and healthy ecosystem where Bloomington residents can ride, work and play because warehouses are not what community members have requested, and certainly not what they deserve.

Therefore, I remind you of what will be irreversibly lost if the Bloomington Business Park Project is accepted. Over 213 acres of residential and agricultural land will be lost to industrial space less than 100 ft. to three public schools (Bloomington High School, Ruth O Harris Middle School, and Walter Zimmerman Elementary School). Our pedestrian and equestrian public spaces will be negatively impacted by an estimated 9,000 vehicle and truck trips on roads in the heart of the community. Undoubtedly, the vibrant and colorful neighborhoods we value will be replaced by changing the character and values of our community. Families in our neighborhoods will experience displacement.

It is my unwavering position that the County of San Bernardino Planning Commissioners and

Board of Supervisors unequivocally oppose the Bloomington Business Park Specific Plan. I ask that you consider alternatives to warehouse projects through outreach and a civic engagement process to collaborate with Bloomington community members to create and implement planning that will allow its residents to enjoy a better quality of life now and for generations to come.

I acknowledge that by sending this letter, I am sharing my name, email, zip code, and any other contact information I want to share with the San Bernardino Planning Commissioners, Board of Supervisors, and my information will be part of the public record.

Planning Manager Aron Liang,

Dear County of San Bernardino County Planning Commission and Board of Supervisors,

My name is Tula Strong. I am a 2011 graduate from Bloomington High School, a community member to the Bloomington region, and I am strongly opposed to the proposed Bloomington Business Park Specific Plan Project.

If approved, this project will change the makeup of Bloomington and community's lifestyle of raising livestock. The Bloomington Business Park's significant environmental impacts are detrimental to the health and well-being of our community's children, seniors, students, and families. Therefore, I urge you to represent the interests of the constituents you serve.

Bloomington is home to a diverse group of working-class families who have formed a vibrant community with strong ties to rural living and self-sufficient farming practices. However, once known for its quaint small-town lifestyle in harmony with the natural world, Bloomington has experienced a massive influx of warehouse development, and an ever-growing sea of concrete is consuming our green open spaces. This evident change to the fabric of our community has fueled strong public opposition to the Bloomington Business Park Project and the dangerous growth of warehouse developments next to homes, schools, and parks. If the fate of the Bloomington Business Park Project were at the hands of our community members, this project would not be an agenda item. The community would have promptly rejected the project with direction to the County Planning Division and prioritized developments focused on creating community and fostering a safe and healthy ecosystem where Bloomington residents can ride, work and play because warehouses are not what community members have requested, and certainly not what they deserve.

Planning Manager Aron Liang,

Me opongo firmemente al Bloomington Business Park Specific Plan propuesto.

Si se aprueba, este proyecto cambiará la composición de Bloomington y nuestro estilo de vida de crianza de ganado. Los impactos ambientales significativos de Bloomington Business Park son perjudiciales para la salud y el bienestar de los niños, las personas mayores y las familias de nuestra comunidad. Por lo tanto, le insisto que represente los intereses de los electores a los que sirve.

Bloomington es el hogar de un grupo diverso de familias de clase trabajadora que han formado una comunidad vibrante con fuertes lazos a la vida rural y prácticas agrícolas autosuficientes. Sin embargo, una vez conocida por su pintoresco estilo de vida de pueblo pequeño en armonía con el mundo natural, Bloomington ha experimentado una afluencia masiva de desarrollo de almacenes, y un mar de concreto en constante crecimiento está consumiendo nuestros espacios verdes abiertos. Este cambio evidente en la estructura de nuestra comunidad ha alimentado una fuerte oposición pública al Proyecto Bloomington Business Park y el peligroso crecimiento de desarrollos de almacenes junto a casas, escuelas y parques. Si el destino del Proyecto Bloomington Business Park estuviera en manos de los miembros de nuestra comunidad, este proyecto no sería un tema de agenda. La comunidad hubieran rechazado rápidamente el proyecto con la dirección de la División de Planificación del Condado y priorizado los desarrollos enfocados en crear comunidad y fomentar un ecosistema seguro y saludable donde los residentes de Bloomington pueden cabalgar, trabajar y jugar porque los almacenes no son lo que los miembros de la comunidad han solicitado, y ciertamente no es lo que se merecen.

Por lo tanto, les recuerdo lo que se perderá irreversiblemente si se acepta el Bloomington

Business Park Specific Plan. Más de 213 acres de terrenos residenciales y agrícolas se perderán en espacios industriales a menos de 100 pies de tres escuelas públicas (Bloomington High School, Ruth O Harris Middle School y Walter Zimmerman Elementary School). Nuestros espacios públicos peatonales y ecuestres se verán afectados negativamente por aproximadamente 9,000 viajes de vehículos y camiones en las carreteras del corazón de la comunidad. Sin duda, los vecindarios vibrantes y coloridos que valoramos serán reemplazados al cambiar el carácter y los valores de nuestra comunidad. Las familias en nuestros vecindarios experimentarán el desplazamiento.

Mi posición inquebrantable es que los Comisionados de Planificación y la Junta de Supervisores del Condado de San Bernardino se oponen inequívocamente al Bloomington Business Park Specific Plan. Les pido que consideren alternativas a los proyectos de almacenes a través de la divulgación y un proceso de participación cívica para colaborar con los miembros de la comunidad de Bloomington para crear e implementar una planificación que permita a sus residentes disfrutar de una mejor calidad de vida ahora y para las generaciones futuras.

Reconozco que al enviar esta carta, estoy compartiendo mi nombre, correo electrónico, código postal y cualquier otra información de contacto que desee compartir con los Comisionados de Planificación de San Bernardino, la Junta de Supervisores, y mi información será parte del registro público.

Planning Manager Aron Liang,

Me opongo firmemente al Bloomington Business Park Specific Plan propuesto.

Si se aprueba, este proyecto cambiará la composición de Bloomington y nuestro estilo de vida de crianza de ganado. Los impactos ambientales significativos de Bloomington Business Park son perjudiciales para la salud y el bienestar de los niños, las personas mayores y las familias de nuestra comunidad. Por lo tanto, le insisto que represente los intereses de los electores a los que sirve.

Bloomington es el hogar de un grupo diverso de familias de clase trabajadora que han formado una comunidad vibrante con fuertes lazos a la vida rural y prácticas agrícolas autosuficientes. Sin embargo, una vez conocida por su pintoresco estilo de vida de pueblo pequeño en armonía con el mundo natural, Bloomington ha experimentado una afluencia masiva de desarrollo de almacenes, y un mar de concreto en constante crecimiento está consumiendo nuestros espacios verdes abiertos. Este cambio evidente en la estructura de nuestra comunidad ha alimentado una fuerte oposición pública al Proyecto Bloomington Business Park y el peligroso crecimiento de desarrollos de almacenes junto a casas, escuelas y parques. Si el destino del Proyecto Bloomington Business Park estuviera en manos de los miembros de nuestra comunidad, este proyecto no sería un tema de agenda. **Subject:** Community Members Opposed to the Bloomington Business Park Specific Plan Project

**CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you can confirm the sender and know the content is safe.**

Planning Manager Aron Liang,

Dear County of San Bernardino County Planning Commission and Board of Supervisors,

I am strongly opposed to the proposed Bloomington Business Park Specific Plan Project.

If approved, this project will change the makeup of Bloomington and our lifestyle of raising livestock. The Bloomington Business Park's significant environmental impacts are detrimental to the health and well-being of our community's children, seniors, and families. Therefore, I urge you to represent the interests of the constituents you serve.

Bloomington is home to a diverse group of working-class families who have formed a vibrant community with strong ties to rural living and self-sufficient farming practices. However, once known for its quaint small-town lifestyle in harmony with the natural world, Bloomington has experienced a massive influx of warehouse development, and an ever-growing sea of concrete is consuming our green open spaces. This evident change to the fabric of our community has fueled strong public opposition to the Bloomington Business Park Project and the dangerous growth of warehouse developments next to homes, schools, and parks. If the fate of the Bloomington Business Park Project were at the hands of our community members, this project would not be an agenda item. The community would have promptly rejected the project with direction to the County Planning Division and prioritized developments focused on creating community and fostering a safe and healthy ecosystem where Bloomington residents can ride, work and play because warehouses are not what community members have requested, and certainly not what they deserve.

Therefore, I remind you of what will be irreversibly lost if the Bloomington Business Park Project is accepted. Over 213 acres of residential and agricultural land will be lost to industrial space less than 100 ft. to three public schools (Bloomington High School, Ruth O

Harris Middle School, and Walter Zimmerman Elementary School). Our pedestrian and equestrian public spaces will be negatively impacted by an estimated 9,000 vehicle and truck trips on roads in the heart of the community. Undoubtedly, the vibrant and colorful neighborhoods we value will be replaced by changing the character and values of our community. Families in our neighborhoods will experience displacement.

It is my unwavering position that the County of San Bernardino Planning Commissioners and Board of Supervisors unequivocally oppose the Bloomington Business Park Specific Plan. I ask that you consider alternatives to warehouse projects through outreach and a civic engagement process to collaborate with Bloomington community members to create and implement planning that will allow its residents to enjoy a better quality of life now and for generations to come.

I acknowledge that by sending this letter, I am sharing my name, email, zip code, and any other contact information I want to share with the San Bernardino Planning Commissioners, Board of Supervisors, and my information will be part of the public record.

Sin embargo, una vez conocida por su pintoresco estilo de vida de pueblo pequeño en armonía con el mundo natural, Bloomington ha experimentado una afluencia masiva de desarrollo de almacenes, y un mar de concreto en constante crecimiento está consumiendo nuestros espacios verdes abiertos. Este cambio evidente en la estructura de nuestra comunidad ha alimentado una fuerte oposición pública al Proyecto Bloomington Business Park y el peligroso crecimiento de desarrollos de almacenes junto a casas, escuelas y parques. Si el destino del Proyecto Bloomington Business Park estuviera en manos de los miembros de nuestra comunidad, este proyecto no sería un tema de agenda. La comunidad hubieran rechazado rápidamente el proyecto con la dirección de la División de Planificación del Condado y priorizado los desarrollos enfocados en crear comunidad y fomentar un ecosistema seguro y saludable donde los residentes de Bloomington pueden cabalgar, trabajar y jugar porque los almacenes no son lo que los miembros de la comunidad han solicitado, y ciertamente no es lo que se merecen.

Por lo tanto, les recuerdo lo que se perderá irreversiblemente si se acepta el Bloomington

Business Park Specific Plan. Más de 213 acres de terrenos residenciales y agrícolas se perderán en espacios industriales a menos de 100 pies de tres escuelas públicas (Bloomington High School, Ruth O Harris Middle School y Walter Zimmerman Elementary School). Nuestros espacios públicos peatonales y ecuestres se verán afectados negativamente por aproximadamente 9,000 viajes de vehículos y camiones en las carreteras del corazón de la comunidad. Sin duda, los vecindarios vibrantes y coloridos que valoramos serán reemplazados al cambiar el carácter y los valores de nuestra comunidad. Las familias en nuestros vecindarios experimentarán el desplazamiento.

Mi posición inquebrantable es que los Comisionados de Planificación y la Junta de Supervisores del Condado de San Bernardino se oponen inequívocamente al Bloomington Business Park Specific Plan. Les pido que consideren alternativas a los proyectos de almacenes a través de la divulgación y un proceso de participación cívica para colaborar con los miembros de la comunidad de Bloomington para crear e implementar una planificación que permita a sus residentes disfrutar de una mejor calidad de vida ahora y para las generaciones futuras.

Reconozco que al enviar esta carta, estoy compartiendo mi nombre, correo electrónico, código postal y cualquier otra información de contacto que desee compartir con los Comisionados de Planificación de San Bernardino, la Junta de Supervisores, y mi información será parte del registro público.

**CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you can confirm the sender and know the content is safe.**

Planning Manager Aron Liang,

Dear County of San Bernardino County Planning Commission and Board of Supervisors,

I am strongly opposed to the proposed Bloomington Business Park Specific Plan Project.

If approved, this project will change the makeup of Bloomington and our lifestyle of raising livestock. The Bloomington Business Park's significant environmental impacts are detrimental to the health and well-being of our community's children, seniors, and families. Therefore, I urge you to represent the interests of the constituents you serve.

Bloomington is home to a diverse group of working-class families who have formed a vibrant community with strong ties to rural living and self-sufficient farming practices. However, once known for its quaint small-town lifestyle in harmony with the natural world, Bloomington has experienced a massive influx of warehouse development, and an ever-growing sea of concrete is consuming our green open spaces. This evident change to the fabric of our community has fueled strong public opposition to the Bloomington Business Park Project and the dangerous growth of warehouse developments next to homes, schools, and parks. If the fate of the Bloomington Business Park Project were at the hands of our community members, this project would not be an agenda item. The community would have promptly rejected the project with direction to the County Planning Division and prioritized developments focused on creating community and fostering a safe and healthy ecosystem where Bloomington residents can ride, work and play because warehouses are not what community members have requested, and certainly not what they deserve.

Therefore, I remind you of what will be irreversibly lost if the Bloomington Business Park Project is accepted. Over 213 acres of residential and agricultural land will be lost to industrial space less than 100 ft. to three public schools (Bloomington High School, Ruth O

Harris Middle School, and Walter Zimmerman Elementary School). Our pedestrian and equestrian public spaces will be negatively impacted by an estimated 9,000 vehicle and truck trips on roads in the heart of the community. Undoubtedly, the vibrant and colorful neighborhoods we value will be replaced by changing the character and values of our community. Families in our neighborhoods will experience displacement.

It is my unwavering position that the County of San Bernardino Planning Commissioners and Board of Supervisors unequivocally oppose the Bloomington Business Park Specific Plan. I ask that you consider alternatives to warehouse projects through outreach and a civic engagement process to collaborate with Bloomington community members to create and implement planning that will allow its residents to enjoy a better quality of life now and for generations to come.

I acknowledge that by sending this letter, I am sharing my name, email, zip code, and any other contact information I want to share with the San Bernardino Planning Commissioners, Board of Supervisors, and my information will be part of the public record.

Nuestros espacios públicos peatonales y ecuestres se verán afectados negativamente por aproximadamente 9,000 viajes de vehículos y camiones en las carreteras del corazón de la comunidad. Sin duda, los vecindarios vibrantes y coloridos que valoramos serán reemplazados al cambiar el carácter y los valores de nuestra comunidad. Las familias en nuestros vecindarios experimentarán el desplazamiento.

Mi posición inquebrantable es que los Comisionados de Planificación y la Junta de Supervisores del Condado de San Bernardino se oponen inequívocamente al Bloomington Business Park Specific Plan. Les pido que consideren alternativas a los proyectos de almacenes a través de la divulgación y un proceso de participación cívica para colaborar con los miembros de la comunidad de Bloomington para crear e implementar una planificación que permita a sus residentes disfrutar de una mejor calidad de vida ahora y para las generaciones futuras.

Reconozco que al enviar esta carta, estoy compartiendo mi nombre, correo electrónico, código postal y cualquier otra información de contacto que desee compartir con los Comisionados de Planificación de San Bernardino, la Junta de Supervisores, y mi información será parte del registro público.

Planning Manager Aron Liang,

Me opongo firmemente al Bloomington Business Park Specific Plan propuesto.

Si se aprueba, este proyecto cambiará la composición de Bloomington y nuestro estilo de vida de crianza de ganado. Los impactos ambientales significativos de Bloomington Business Park son perjudiciales para la salud y el bienestar de los niños, las personas mayores y las familias de nuestra comunidad. Por lo tanto, le insisto que represente los intereses de los electores a los que sirve.

Bloomington es el hogar de un grupo diverso de familias de clase trabajadora que han formado una comunidad vibrante con fuertes lazos a la vida rural y prácticas agrícolas autosuficientes. Sin embargo, una vez conocida por su pintoresco estilo de vida de pueblo pequeño en armonía con el mundo natural, Bloomington ha experimentado una afluencia masiva de desarrollo de almacenes, y un mar de concreto en constante crecimiento está consumiendo nuestros espacios verdes abiertos. Este cambio evidente en la estructura de nuestra comunidad ha alimentado una fuerte oposición pública al Proyecto Bloomington Business Park y el peligroso crecimiento de desarrollos de almacenes junto a casas, escuelas y parques. Si el destino del Proyecto Bloomington Business Park estuviera en manos de los miembros de nuestra comunidad, este proyecto no sería un tema de agenda. La comunidad hubieran rechazado rápidamente el proyecto con la dirección de la División de Planificación del Condado y priorizado los desarrollos enfocados en crear comunidad y fomentar un ecosistema seguro y saludable donde los residentes de Bloomington pueden cabalgar, trabajar y jugar porque los almacenes no son lo que los miembros de la comunidad han solicitado, y ciertamente no es lo que se merecen.

Por lo tanto, les recuerdo lo que se perderá irreversiblemente si se acepta el Bloomington

Business Park Specific Plan. Más de 213 acres de terrenos residenciales y agrícolas se perderán en espacios industriales a menos de 100 pies de tres escuelas públicas (Bloomington High School, Ruth O Harris Middle School y Walter Zimmerman Elementary School). Nuestros espacios públicos peatonales y ecuestres se verán afectados negativamente por aproximadamente 9,000 viajes de vehículos y camiones en las carreteras del corazón de la comunidad. Sin duda, los vecindarios vibrantes y coloridos que valoramos serán reemplazados al cambiar el carácter y los valores de nuestra comunidad. Las familias en nuestros vecindarios experimentarán el desplazamiento.

Mi posición inquebrantable es que los Comisionados de Planificación y la Junta de Supervisores del Condado de San Bernardino se oponen inequívocamente al Bloomington Business Park Specific Plan. **CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you can confirm the sender and know the content is safe.**

Planning Manager Aron Liang,

Dear County of San Bernardino County Planning Commission and Board of Supervisors,

I am strongly opposed to the proposed Bloomington Business Park Specific Plan Project.

If approved, this project will change the makeup of Bloomington and our lifestyle of raising livestock. The Bloomington Business Park's significant environmental impacts are detrimental to the health and well-being of our community's children, seniors, and families. Therefore, I urge you to represent the interests of the constituents you serve.

Bloomington is home to a diverse group of working-class families who have formed a vibrant community with strong ties to rural living and self-sufficient farming practices. However, once known for its quaint small-town lifestyle in harmony with the natural world, Bloomington has experienced a massive influx of warehouse development, and an ever-growing sea of concrete is consuming our green open spaces. This evident change to the fabric of our community has fueled strong public opposition to the Bloomington Business Park Project and the dangerous growth of warehouse developments next to homes, schools, and parks. If the fate of the Bloomington Business Park Project were at the hands of our community members, this project would not be an agenda item. The community would have promptly rejected the project with direction to the County Planning Division and prioritized developments focused on creating community and fostering a safe and healthy ecosystem where Bloomington residents can ride, work and play because warehouses are not what community members have requested, and certainly not what they deserve.

Therefore, I remind you of what will be irreversibly lost if the Bloomington Business Park Project is accepted. Over 213 acres of residential and agricultural land will be lost to industrial space less than 100 ft. to three public schools (Bloomington High School, Ruth O

Harris Middle School, and Walter Zimmerman Elementary School). Our pedestrian and equestrian public spaces will be negatively impacted by an estimated 9,000 vehicle and truck trips on roads in the heart of the community. Undoubtedly, the vibrant and colorful neighborhoods we value will be replaced by changing the character and values of our community. Families in our neighborhoods will experience displacement.

It is my unwavering position that the County of San Bernardino Planning Commissioners and Board of Supervisors unequivocally oppose the Bloomington Business Park Specific Plan. I ask that you consider alternatives to warehouse projects through outreach and a civic engagement process to collaborate with Bloomington community members to create and implement planning that will allow its residents to enjoy a better quality of life now and for generations to come.

I acknowledge that by sending this letter, I am sharing my name, email, zip code, and any other contact information I want to share with the San Bernardino Planning Commissioners, Board of Supervisors, and my information will be part of the public record.

Commissioner Planning Commission,

17 yrs ago we decided to purchase a home in Bloomington to raise are kids in a ranch life with animals and property for them to play and enjoy their childhood. We usto walk around are neighborhoods in the evening. Due to all the semi trucks we stopped they drive to fast and all the warehouse workers don't respect speed limit and its dangerous. We have had 4 situations were warehouse employees take lunch and park in front of our house and smoke weed. Others actually drink beer at lunch we know they are workers from fedex and Amazon because we follow them back to work and they had their FedEx shirt or Amazon vest.

BLOOMINGTON IS OUR HOME STOP ALL THE WAREHOUSE WE HAVE ENOUGH WITH FEDEX AND AMAZON PLUS THE TWO BIG ONES ON EL RIVINO THAT ARE CURRENTLY BEING BUILT WORKERS START AT 8PM WITH POWERFUL LIGHTS POINTING OUR HOME NO RESPECT. THEY HAVE ALL THIS NOISE AND LIGHTS FROM 8PM TO 4AM. WE ARE WORKING CITIZENS THAT START ARE DAY AT 6AM.

Commissioner Planning Commission,

Dear County of San Bernardino County Planning Commission and Board of Supervisors,

I am strongly opposed to the proposed Bloomington Business Park Specific Plan Project.

If approved, this project will change the makeup of Bloomington and our lifestyle of raising livestock. The Bloomington Business Park's significant environmental impacts are detrimental to the health and well-being of our community's children, seniors, and families. Therefore, I urge you to represent the interests of the constituents you serve.

Bloomington is home to a diverse group of working-class families who have formed a vibrant community with strong ties to rural living and self-sufficient farming practices. However, once known for its quaint small-town lifestyle in harmony with the natural world, Bloomington has experienced a massive influx of warehouse development, and an ever-growing sea of concrete is consuming our green open spaces. This evident change to the fabric of our community has fueled strong public opposition to the Bloomington Business Park Project and the dangerous growth of warehouse developments next to homes, schools, and parks. If the fate of the Bloomington Business Park Project were at the hands of our community members, this project would not be an agenda item. The community would have promptly rejected the project with direction to the County Planning Division and prioritized developments focused on creating community and fostering a safe and healthy ecosystem where Bloomington residents can ride, work and play because warehouses are not what community members have requested, and certainly not what they deserve.

Therefore, I remind you of what will be irreversibly lost if the Bloomington Business Park Project is accepted. Over 213 acres of residential and agricultural land will be lost to industrial space less than 100 ft. to three public schools (Bloomington High School, Ruth O Harris Middle School, and Walter Zimmerman Elementary School). Our pedestrian and equestrian public spaces will be negatively impacted by an estimated 9,000 vehicle and truck trips on roads in the heart of the community. Undoubtedly, the vibrant and colorful neighborhoods we value will be replaced by changing the character and values of our community. Families in our neighborhoods will experience displacement.

It is my unwavering position that the County of San Bernardino Planning Commissioners and

Board of Supervisors unequivocally oppose the Bloomington Business Park Specific Plan. I ask that you consider alternatives to warehouse projects through outreach and a civic engagement process to collaborate with Bloomington community members to create and implement planning that will allow its residents to enjoy a better quality of life now and for generations to come.

I acknowledge that by sending this letter, I am sharing my name, email, zip code, and any other contact information I want to share with the San Bernardino Planning Commissioners, Board of Supervisors, and my information will be part of the public record.

It is my unwavering position that the County of San Bernardino Planning Commissioners and Board of Supervisors unequivocally oppose the Bloomington Business Park Specific Plan. I ask that you consider alternatives to warehouse projects through outreach and a civic engagement process to collaborate with Bloomington community members to create and implement planning that will allow its residents to enjoy a better quality of life now and for generations to come.

I acknowledge that by sending this letter, I am sharing my name, email, zip code, and any other contact information I want to share with the San Bernardino Planning Commissioners, Board of Supervisors, and my information will be part of the public record.

**CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you can confirm the sender and know the content is safe.**

Planning Manager Aron Liang,

Dear County of San Bernardino County Planning Commission and Board of Supervisors,

I am strongly opposed to the proposed Bloomington Business Park Specific Plan Project.

If approved, this project will change the makeup of Bloomington and our lifestyle of raising livestock. The Bloomington Business Park's significant environmental impacts are detrimental to the health and well-being of our community's children, seniors, and families. Therefore, I urge you to represent the interests of the constituents you serve.

Bloomington is home to a diverse group of working-class families who have formed a vibrant community with strong ties to rural living and self-sufficient farming practices. However, once known for its quaint small-town lifestyle in harmony with the natural world, Bloomington has experienced a massive influx of warehouse development, and an ever-growing sea of concrete is consuming our green open spaces. This evident change to the fabric of our community has fueled strong public opposition to the Bloomington Business Park Project and the dangerous growth of warehouse developments next to homes, schools, and parks. If the fate of the Bloomington Business Park Project were at the hands of our community members, this project would not be an agenda item. The community would have promptly rejected the project with direction to the County Planning Division and prioritized developments focused on creating community and fostering a safe and healthy ecosystem where Bloomington residents can ride, work and play because warehouses are not what community members have requested, and certainly not what they deserve.

Therefore, I remind you of what will be irreversibly lost if the Bloomington Business Park Project is accepted. Over 213 acres of residential and agricultural land will be lost to industrial space less than 100 ft. to three public schools (Bloomington High School, Ruth O

Harris Middle School, and Walter Zimmerman Elementary School). Our pedestrian and equestrian public spaces will be negatively impacted by an estimated 9,000 vehicle and truck trips on roads in the heart of the community. Undoubtedly, the vibrant and colorful neighborhoods we value will be replaced by changing the character and values of our community. Families in our neighborhoods will experience displacement.

It is my unwavering position that the County of San Bernardino Planning Commissioners and Board of Supervisors unequivocally oppose the Bloomington Business Park Specific Plan. I ask that you consider alternatives to warehouse projects through outreach and a civic engagement process to collaborate with Bloomington community members to create and implement planning that will allow its residents to enjoy a better quality of life now and for generations to come.

I acknowledge that by sending this letter, I am sharing my name, email, zip code, and any other contact information I want to share with the San Bernardino Planning Commissioners, Board of Supervisors, and my information will be part of the public record.

Planning Manager Aron Liang,

Me opongo firmemente al Bloomington Business Park Specific Plan propuesto.

Si se aprueba, este proyecto cambiará la composición de Bloomington y nuestro estilo de vida de crianza de ganado. Los impactos ambientales significativos de Bloomington Business Park son perjudiciales para la salud y el bienestar de los niños, las personas mayores y las familias de nuestra comunidad. Por lo tanto, le insisto que represente los intereses de los electores a los que sirve.

Bloomington es el hogar de un grupo diverso de familias de clase trabajadora que han formado una comunidad vibrante con fuertes lazos a la vida rural y prácticas agrícolas autosuficientes. Sin embargo, una vez conocida por su pintoresco estilo de vida de pueblo pequeño en armonía con el mundo natural, Bloomington ha experimentado una afluencia masiva de desarrollo de almacenes, y un mar de concreto en constante crecimiento está consumiendo nuestros espacios verdes abiertos. Este cambio evidente en la estructura de nuestra comunidad ha alimentado una fuerte oposición pública al Proyecto Bloomington Business Park y el peligroso crecimiento de desarrollos de almacenes junto a casas, escuelas y parques. Si el destino del Proyecto Bloomington Business Park estuviera en manos de los miembros de nuestra comunidad, este proyecto no sería un tema de agenda. La comunidad hubieran rechazado rápidamente el proyecto con la dirección de la División de Planificación del Condado y priorizado los desarrollos enfocados en crear comunidad y fomentar un ecosistema seguro y saludable donde los residentes de Bloomington pueden cabalgar, trabajar y jugar porque los almacenes no son lo que los miembros de la comunidad han solicitado, y ciertamente no es lo que se merecen.

Por lo tanto, les recuerdo lo que se perderá irreversiblemente si se acepta el Bloomington

Business Park Specific Plan. Más de 213 acres de terrenos residenciales y agrícolas se perderán en espacios industriales a menos de 100 pies de tres escuelas públicas (Bloomington High School, Ruth O Harris Middle School y Walter Zimmerman Elementary School). Nuestros espacios públicos peatonales y ecuestres se verán afectados negativamente por aproximadamente 9,000 viajes de vehículos y camiones en las carreteras del corazón de la comunidad. Sin duda, los vecindarios vibrantes y coloridos que valoramos serán reemplazados al cambiar el carácter y los valores de nuestra comunidad. Las familias en nuestros vecindarios experimentarán el desplazamiento.

Mi posición inquebrantable es que los Comisionados de Planificación y la Junta de Supervisores del Condado de San Bernardino se oponen inequívocamente al Bloomington Business Park Specific Plan. Les pido que consideren alternativas a los proyectos de almacenes a través de la divulgación y un proceso de participación cívica para colaborar con los miembros de la comunidad de Bloomington para crear e implementar una planificación que permita a sus residentes disfrutar de una mejor calidad de vida ahora y para las generaciones futuras.

Reconozco que al enviar esta carta, estoy compartiendo mi nombre, correo electrónico, código postal y cualquier otra información de contacto que desee compartir con los Comisionados de Planificación de San Bernardino, la Junta de Supervisores, y mi información será parte del registro público.

Planning Manager Aron Liang,

Me opongo firmemente al Bloomington Business Park Specific Plan propuesto.

Si se aprueba, este proyecto cambiará la composición de Bloomington y nuestro estilo de vida de crianza de ganado. Los impactos ambientales significativos de Bloomington Business Park son perjudiciales para la salud y el bienestar de los niños, las personas mayores y las familias de nuestra comunidad. Por lo tanto, le insisto que represente los intereses de los electores a los que sirve.

Bloomington es el hogar de un grupo diverso de familias de clase trabajadora que han formado una comunidad vibrante con fuertes lazos a la vida rural y prácticas agrícolas autosuficientes. Sin embargo, una vez conocida por su pintoresco estilo de vida de pueblo pequeño en armonía con el mundo natural, Bloomington ha experimentado una afluencia masiva de desarrollo de almacenes, y un mar de concreto en constante crecimiento está consumiendo nuestros espacios verdes abiertos. Este cambio evidente en la estructura de nuestra comunidad ha alimentado una fuerte oposición pública al Proyecto Bloomington Business Park y el peligroso crecimiento de desarrollos de almacenes junto a casas, escuelas y parques. Si el destino del Proyecto Bloomington Business Park estuviera en manos de los miembros de nuestra comunidad, este proyecto no sería un tema de agenda. La comunidad hubieran rechazado rápidamente el proyecto con la dirección de la División de Planificación del Condado y priorizado los desarrollos enfocados en crear comunidad y fomentar un ecosistema seguro y saludable donde los residentes de Bloomington pueden cabalgar, trabajar y jugar porque los almacenes no son lo que los miembros de la comunidad han solicitado, y ciertamente no es lo que se merecen.

Por lo tanto, les recuerdo lo que se perderá irreversiblemente si se acepta el Bloomington

Business Park Specific Plan. Más de 213 acres de terrenos residenciales y agrícolas se perderán en espacios industriales a menos de 100 pies de tres escuelas públicas (Bloomington High School, Ruth O Harris Middle School y Walter Zimmerman Elementary School). Nuestros espacios públicos peatonales y ecuestres se verán afectados negativamente por aproximadamente 9,000 viajes de vehículos y camiones en las carreteras del corazón de la comunidad. Sin duda, los vecindarios vibrantes y coloridos que valoramos serán reemplazados al cambiar el carácter y los valores de nuestra comunidad. Las familias en nuestros vecindarios experimentarán el desplazamiento.

Mi posición inquebrantable es que los Comisionados de Planificación y la Junta de Supervisores del Condado de San Bernardino se oponen inequívocamente al Bloomington Business Park Specific Plan. Les pido que consideren alternativas a los proyectos de almacenes a través de la divulgación y un proceso de participación cívica para colaborar con los miembros de la comunidad de Bloomington para crear e implementar una planificación que permita a sus residentes disfrutar de una mejor calidad de vida ahora y para las generaciones futuras.

Reconozco que al enviar esta carta, estoy compartiendo mi nombre, correo electrónico, código postal y cualquier otra información de contacto que desee compartir con los Comisionados de Planificación de San Bernardino, la Junta de Supervisores, y mi información será parte del registro público.

Perez Sonia

Planning Manager Aron Liang,

Dear County of San Bernardino County Planning Commission and Board of Supervisors,

I am strongly opposed to the proposed Bloomington Business Park Specific Plan Project.

If approved, this project will change the makeup of Bloomington and our lifestyle of raising livestock. The Bloomington Business Park's significant environmental impacts are detrimental to the health and well-being of our community's children, seniors, and families. Therefore, I urge you to represent the interests of the constituents you serve.

Bloomington is home to a diverse group of working-class families who have formed a vibrant community with strong ties to rural living and self-sufficient farming practices. However, once known for its quaint small-town lifestyle in harmony with the natural world, Bloomington has experienced a massive influx of warehouse development, and an ever-growing sea of concrete is consuming our green open spaces. This evident change to the fabric of our community has fueled strong public opposition to the Bloomington Business Park Project and the dangerous growth of warehouse developments next to homes, schools, and parks. If the fate of the Bloomington Business Park Project were at the hands of our community members, this project would not be an agenda item. The community would have promptly rejected the project with direction to the County Planning Division and prioritized developments focused on creating community and fostering a safe and healthy ecosystem where Bloomington residents can ride, work and play because warehouses are not what community members have requested, and certainly not what they deserve.

Therefore, I remind you of what will be irreversibly lost if the Bloomington Business Park Project is accepted. Over 213 acres of residential and agricultural land will be lost to industrial space less than 100 ft. to three public schools (Bloomington High School, Ruth O

Harris Middle School, and Walter Zimmerman Elementary School). Our pedestrian and equestrian public spaces will be negatively impacted by an estimated 9,000 vehicle and truck trips on roads in the heart of the community. Undoubtedly, the vibrant and colorful neighborhoods we value will be replaced by changing the character and values of our community. Families in our neighborhoods will experience displacement.

It is my unwavering position that the County of San Bernardino Planning Commissioners and Board of Supervisors unequivocally oppose the Bloomington Business Park Specific Plan. I ask that you consider alternatives to warehouse projects through outreach and a civic engagement process to collaborate with Bloomington community members to create and implement planning that will allow its residents to enjoy a better quality of life now and for generations to come.

I acknowledge that by sending this letter, I am sharing my name, email, zip code, and any other contact information I want to share with the San Bernardino Planning Commissioners, Board of Supervisors, and my information will be part of the public record.

Dear San Bernardino Planning Commission and Board of Supervisors,

I support the Bloomington Business Park.

This project will provide an unprecedented investment in Bloomington, including the addition of miles of new roads with sidewalks and lighting, over \$1 million annually to support public safety in Bloomington ONLY, thousands of new jobs, and a new state-of-the-art school. This historic investment in Bloomington will benefit the community for decades to come.

Please support the Bloomington Business Park.

Bloomington is home to a diverse group of working-class families who have formed a vibrant community with strong ties to rural living and self-sufficient farming practices. However, once known for its quaint small-town lifestyle in harmony with the natural world, Bloomington has experienced a massive influx of warehouse development, and an ever-growing sea of concrete is consuming our green open spaces. This evident change to the fabric of our community has fueled strong public opposition to the Bloomington Business Park Project and the dangerous growth of warehouse developments next to homes, schools, and parks. If the fate of the Bloomington Business Park Project were at the hands of our community members, this project would not be an agenda item. The community would have promptly rejected the project with direction to the County Planning Division and prioritized developments focused on creating community and fostering a safe and healthy ecosystem where Bloomington residents can ride, work and play because warehouses are not what community members have requested, and certainly not what they deserve.

Therefore, I remind you of what will be irreversibly lost if the Bloomington Business Park Project is accepted. Over 213 acres of residential and agricultural land will be lost to industrial space less than 100 ft. to three public schools (Bloomington High School, Ruth O Harris Middle School, and Walter Zimmerman Elementary School). Our pedestrian and equestrian public spaces will be negatively impacted by an estimated 9,000 vehicle and truck trips on roads in the heart of the community. Undoubtedly, the vibrant and colorful neighborhoods we value will be replaced by changing the character and values of our community. Families in our neighborhoods will experience displacement.

It is my unwavering position that the County of San Bernardino Planning Commissioners and

Board of Supervisors unequivocally oppose the Bloomington Business Park Specific Plan. I ask that you consider alternatives to warehouse projects through outreach and a civic engagement process to collaborate with Bloomington community members to create and implement planning that will allow its residents to enjoy a better quality of life now and for generations to come.

I acknowledge that by sending this letter, I am sharing my name, email, zip code, and any other contact information I want to share with the San Bernardino Planning Commissioners, Board of Supervisors, and my information will be part of the public record.

Commissioner Planning Commission,

Dear County of San Bernardino County Planning Commission and Board of Supervisors,

I am strongly opposed to the proposed Bloomington Business Park Specific Plan Project.

If approved, this project will change the makeup of Bloomington and our lifestyle of raising livestock. The Bloomington Business Park's significant environmental impacts are detrimental to the health and well-being of our community's children, seniors, and families. Therefore, I urge you to represent the interests of the constituents you serve.

Bloomington is home to a diverse group of working-class families who have formed a vibrant community with strong ties to rural living and self-sufficient farming practices. However, once known for its quaint small-town lifestyle in harmony with the natural world, Bloomington has experienced a massive influx of warehouse development, and an ever-growing sea of concrete is consuming our green open spaces. This evident change to the fabric of our community has fueled strong public opposition to the Bloomington Business Park Project and the dangerous growth of warehouse developments next to homes, schools, and parks. If the fate of the Bloomington Business Park Project were at the hands of our community members, this project would not be an agenda item. **NO MORE WAREHOUSE NOR BUSINESSES!!**

It's bad for our community and children with these truck driver passing through our residential areas and maybe you may consider on putting speed bumps on our street so the cars can stop speeding down like if it was an open road!!

Dear San Bernardino Planning Commission and Board of Supervisors,

I support the Bloomington Business Park.

This project will provide an unprecedented investment in Bloomington, including the addition of miles of new roads with sidewalks and lighting, over \$1 million annually to support public safety in Bloomington ONLY, thousands of new jobs, and a new state-of-the-art school. This historic investment in Bloomington will benefit the community for decades to come.

Please support the Bloomington Business Park.

Commissioner Planning Commission,

Dear County of San Bernardino County Planning Commission and Board of Supervisors,

I am strongly opposed to the proposed Bloomington Business Park Specific Plan Project.

If approved, this project will change the safety of neighbor by allowing hung influx of traffic not only dangerous as my three children make their way home from elementary school and high school. Please reconsider this is not a upgrade for our community it's a down grade by far, thank you for your time.

Therefore, I urge you to represent the interests of the constituents you serve.

Bloomington is home to a diverse group of working-class families who have formed a vibrant community with strong ties to rural living and self-sufficient farming practices. However, once known for its quaint small-town lifestyle in harmony with the natural world, Bloomington has experienced a massive influx of warehouse development, and an ever-growing sea of concrete is consuming our green open spaces. This evident change to the fabric of our community has fueled strong public opposition to the Bloomington Business Park Project and the dangerous growth of warehouse developments next to homes, schools, and parks. If the fate of the Bloomington Business Park Project were at the hands of our community members, this project would not be an agenda item. The community would have promptly rejected the project with direction to the County Planning Division and prioritized developments focused on creating community and fostering a safe and healthy ecosystem where Bloomington residents can ride, work and play because warehouses are not what community members have requested, and certainly not what they deserve.

Therefore, I remind you of what will be irreversibly lost if the Bloomington Business Park Project is accepted. Over 213 acres of residential and agricultural land will be lost to industrial space less than 100 ft. to three public schools (Bloomington High School, Ruth O Harris Middle School, and Walter Zimmerman Elementary School). Our pedestrian and equestrian public spaces will be negatively impacted by an estimated 9,000 vehicle and truck trips on roads in the heart of the community. Undoubtedly, the vibrant and colorful neighborhoods we value will be replaced by changing the character and values of our community. Families in our neighborhoods will experience displacement.

It is my unwavering position that the County of San Bernardino Planning Commissioners and

Board of Supervisors unequivocally oppose the Bloomington Business Park Specific Plan. I ask that you consider alternatives to warehouse projects through outreach and a civic engagement process to collaborate with Bloomington community members to create and implement planning that will allow its residents to enjoy a better quality of life now and for generations to come.

I acknowledge that by sending this letter, I am sharing my name, email, zip code, and any other contact information I want to share with the San Bernardino Planning Commissioners, Board of Supervisors, and my information will be part of the public record.

Commissioner Planning Commission,

Dear County of San Bernardino County Planning Commission and Board of Supervisors,

I am strongly opposed to the proposed Bloomington Business Park Specific Plan Project.

If approved, this project will change the makeup of Bloomington and our lifestyle of raising livestock. The Bloomington Business Park's significant environmental impacts are detrimental to the health and well-being of our community's children, seniors, and families. Therefore, I urge you to represent the interests of the constituents you serve.

Bloomington is home to a diverse group of working-class families who have formed a vibrant community with strong ties to rural living and self-sufficient farming practices. However, once known for its quaint small-town lifestyle in harmony with the natural world, Bloomington has experienced a massive influx of warehouse development, and an ever-growing sea of concrete is consuming our green open spaces. This evident change to the fabric of our community has fueled strong public opposition to the Bloomington Business Park Project and the dangerous growth of warehouse developments next to homes, schools, and parks. Dear San Bernardino Planning Commission and Board of Supervisors,

I support the Bloomington Business Park.

This project will provide an unprecedented investment in Bloomington, including the addition of miles of new roads with sidewalks and lighting, over \$1 million annually to support public safety in Bloomington ONLY, thousands of new jobs, and a new state-of-the-art school. This historic investment in Bloomington will benefit the community for decades to come.

Please support the Bloomington Business Park.

I am strongly opposed to the proposed Bloomington Business Park Specific Plan Project.

If approved, this project will change the makeup of Bloomington and our lifestyle of raising livestock. The Bloomington Business Park's significant environmental impacts are detrimental to the health and well-being of our community's children, seniors, and families. Therefore, I urge you to represent the interests of the constituents you serve.

Bloomington is home to a diverse group of working-class families who have formed a vibrant community with strong ties to rural living and self-sufficient farming practices. However, once known for its quaint small-town lifestyle in harmony with the natural world, Bloomington has experienced a massive influx of warehouse development, and an ever-growing sea of concrete is consuming our green open spaces. This evident change to the fabric of our community has fueled strong public opposition to the Bloomington Business Park Project and the dangerous growth of warehouse developments next to homes, schools, and parks. If the fate of the Bloomington Business Park Project were at the hands of our community members, this project would not be an agenda item. The community would have promptly rejected the project with direction to the County Planning Division and prioritized developments focused on creating community and fostering a safe and healthy ecosystem where Bloomington residents can ride, work and play because warehouses are not what community members have requested, and certainly not what they deserve.

Therefore, I remind you of what will be irreversibly lost if the Bloomington Business Park Project is accepted. Over 213 acres of residential and agricultural land will be lost to industrial space less than 100 ft. to three public schools (Bloomington High School, Ruth O Harris Middle School, and Walter Zimmerman Elementary School). Our pedestrian and equestrian public spaces will be negatively impacted by an estimated 9,000 vehicle and truck trips on roads in the heart of the community. Undoubtedly, the vibrant and colorful neighborhoods we value will be replaced by changing the character and values of our community. Families in our neighborhoods will experience displacement.

It is my unwavering position that the County of San Bernardino Planning Commissioners and

Board of Supervisors unequivocally oppose the Bloomington Business Park Specific Plan. I ask that you consider alternatives to warehouse projects through outreach and a civic engagement process to collaborate with Bloomington community members to create and implement planning that will allow its residents to enjoy a better quality of life now and for generations to come.

I acknowledge that by sending this letter, I am sharing my name, email, zip code, and any other contact information I want to share with the San Bernardino Planning Commissioners, Board of Supervisors, and my information will be part of the public record.

Commissioner Planning Commission,

Dear County of San Bernardino County Planning Commission and Board of Supervisors,

I am strongly opposed to the proposed Bloomington Business Park Specific Plan Project.

Bloomington is family oriented city. I am very disappointed that the county allowed warehouses so close to our schools. In addition, the county allowed a truck stop/gas station feet away from Crestmore elementary in a decade where there is so much sex trafficking and children trafficking. Any of these truckers can pick up a CHILD and take them to another state within hours. It's a SHAME that your board did not consider the students safety. There are thousands of free land all over San Bernardino county, but instead you guys chose to take over populated city.

If approved, this project will change the makeup of Bloomington and our lifestyle of raising livestock. The Bloomington Business Park's significant environmental impacts are detrimental to the health and well-being of our community's children, seniors, and families. Therefore, I urge you to represent the interests of the constituents you serve.

If approved, this project will change the makeup of Bloomington and our lifestyle of raising livestock. The Bloomington Business Park's significant environmental impacts are detrimental to the health and well-being of our community's children, seniors, and families. Therefore, I urge you to represent the interests of the constituents you serve.

Bloomington is home to a diverse group of working-class families who have formed a vibrant community with strong ties to rural living and self-sufficient farming practices. However, once known for its quaint small-town lifestyle in harmony with the natural world, Bloomington has experienced a massive influx of warehouse development, and an ever-growing sea of concrete is consuming our green open spaces. This evident change to the fabric of our community has fueled strong public opposition to the Bloomington Business Park Project and the dangerous growth of warehouse developments next to homes, schools, and parks. If the fate of the Bloomington Business Park Project were at the hands of our community members, this project would not be an agenda item. The community would have promptly rejected the project with direction to the County Planning Division and prioritized developments focused on creating community and fostering a safe and healthy ecosystem where Bloomington residents can ride, work and play because warehouses are not what community members have requested, and certainly not what they deserve.

Therefore, I remind you of what will be irreversibly lost if the Bloomington Business Park Project is accepted. Over 213 acres of residential and agricultural land will be lost to industrial space less than 100 ft. to three public schools (Bloomington High School, Ruth O Harris Middle School, and Walter Zimmerman Elementary School). Our pedestrian and equestrian public spaces will be negatively impacted by an estimated 9,000 vehicle and truck trips on roads in the heart of the community. Undoubtedly, the vibrant and colorful neighborhoods we value will be replaced by changing the character and values of our community. Families in our neighborhoods will experience displacement.

It is my unwavering position that the County of San Bernardino Planning Commissioners and

Board of Supervisors unequivocally oppose the Bloomington Business Park Specific Plan. I ask that you consider alternatives to warehouse projects through outreach and a civic engagement process to collaborate with Bloomington community members to create and implement planning that will allow its residents to enjoy a better quality of life now and for generations to come.

I acknowledge that by sending this letter, I am sharing my name, email, zip code, and any other contact information I want to share with the San Bernardino Planning Commissioners, Board of Supervisors, and my information will be part of the public record.

Commissioner Planning Commission,

Me opongo firmemente al Bloomington Business Park Specific Plan propuesto.

Si se aprueba, este proyecto cambiará la composición de Bloomington y nuestro estilo de vida de crianza de ganado. Los impactos ambientales significativos de Bloomington Business Park son perjudiciales para la salud y el bienestar de los niños, las personas mayores y las familias de nuestra comunidad. Por lo tanto, le insisto que represente los intereses de los electores a los que sirve.

Bloomington es el hogar de un grupo diverso de familias de clase trabajadora que han formado una comunidad vibrante con fuertes lazos a la vida rural y prácticas agrícolas autosuficientes. Sin embargo, una vez conocida por su pintoresco estilo de vida de pueblo pequeño en armonía con el mundo natural, Bloomington ha experimentado una afluencia masiva de desarrollo de almacenes, y un mar de concreto en constante crecimiento está consumiendo nuestros espacios verdes abiertos. Este cambio evidente en la estructura de nuestra comunidad ha alimentado una fuerte oposición pública al Proyecto Bloomington Business Park y el peligroso crecimiento de desarrollos de almacenes junto a casas, escuelas y parques. Si el destino del Proyecto Bloomington Business Park estuviera en manos de los miembros de nuestra comunidad, este proyecto no sería un tema de agenda. La comunidad hubieran rechazado rápidamente el proyecto con la dirección de la División de Planificación del Condado y priorizado los desarrollos enfocados en crear comunidad y fomentar un ecosistema seguro y saludable donde los residentes de Bloomington pueden cabalgar, trabajar y jugar porque los almacenes no son lo que los miembros de la comunidad han solicitado, y ciertamente no es lo que se merecen.

Por lo tanto, les recuerdo lo que se perderá irreversiblemente si se acepta el Bloomington Business Park Specific Plan. Más de 213 acres de terrenos residenciales y agrícolas se perderán en espacios industriales a menos de 100 pies de tres escuelas públicas (Bloomington High School, Ruth O Harris Middle School y Walter Zimmerman Elementary School). Nuestros espacios públicos peatonales y ecuestres se verán afectados negativamente por aproximadamente 9,000 viajes de vehículos y camiones en las carreteras del corazón de la comunidad. Sin duda, los vecindarios vibrantes y coloridos que valoramos serán reemplazados al cambiar el carácter y los valores de nuestra comunidad. Las familias

en nuestros vecindarios experimentarán el desplazamiento.

Mi posición inquebrantable es que los Comisionados de Planificación y la Junta de Supervisores del Condado de San Bernardino se oponen inequívocamente al Bloomington Business Park Specific Plan. Les pido que consideren alternativas a los proyectos de almacenes a través de la divulgación y un proceso de participación cívica para colaborar con los miembros de la comunidad de Bloomington para crear e implementar una planificación que permita a sus residentes disfrutar de una mejor calidad de vida ahora y para las generaciones futuras.

Reconozco que al enviar esta carta, estoy compartiendo mi nombre, correo electrónico, código postal y cualquier otra información de contacto que desee compartir con los Comisionados de Planificación de San Bernardino, la Junta de Supervisores, y mi información será parte del registro público.

Commissioner Planning Commission,

Dear County of San Bernardino County Planning Commission and Board of Supervisors,

I am strongly opposed to the proposed Bloomington Business Park Specific Plan Project.

If approved, this project will change the makeup of Bloomington and our lifestyle of raising livestock. The Bloomington Business Park's significant environmental impacts are detrimental to the health and well-being of our community's children, seniors, and families. Therefore, I urge you to represent the interests of the constituents you serve.

Bloomington is home to a diverse group of working-class families who have formed a vibrant community with strong ties to rural living and self-sufficient farming practices. However, once known for its quaint small-town lifestyle in harmony with the natural world, Bloomington has experienced a massive influx of warehouse development, and an ever-growing sea of concrete is consuming our green open spaces. This evident change to the fabric of our community has fueled strong public opposition to the Bloomington Business Park Project and the dangerous growth of warehouse developments next to homes, schools, and parks. If the fate of the Bloomington Business Park Project were at the hands of our community members, this project would not be an agenda item. The community would have promptly rejected the project with direction to the County Planning Division and prioritized developments focused on creating community and fostering a safe and healthy ecosystem where Bloomington residents can ride, work and play because warehouses are not what community members have requested, and certainly not what they deserve.

Therefore, I remind you of what will be irreversibly lost if the Bloomington Business Park Project is accepted. Over 213 acres of residential and agricultural land will be lost to industrial space less than 100 ft. to three public schools (Bloomington High School, Ruth O Harris Middle School, and Walter Zimmerman Elementary School). Our pedestrian and equestrian public spaces will be negatively impacted by an estimated 9,000 vehicle and truck trips on roads in the heart of the community. Undoubtedly, the vibrant and colorful neighborhoods we value will be replaced by changing the character and values of our community. Families in our neighborhoods will experience displacement.

It is my unwavering position that the County of San Bernardino Planning Commissioners and

Board of Supervisors unequivocally oppose the Bloomington Business Park Specific Plan. I ask that you consider alternatives to warehouse projects through outreach and a civic engagement process to collaborate with Bloomington community members to create and implement planning that will allow its residents to enjoy a better quality of life now and for generations to come.

I acknowledge that by sending this letter, I am sharing my name, email, zip code, and any other contact information I want to share with the San Bernardino Planning Commissioners, Board of Supervisors, and my information will be part of the public record.

Commissioner Planning Commission,

Me opongo firmemente al Bloomington Business Park Specific Plan propuesto.

Si se aprueba, este proyecto cambiará la composición de Bloomington y nuestro estilo de vida de crianza de ganado. Los impactos ambientales significativos de Bloomington Business Park son perjudiciales para la salud y el bienestar de los niños, las personas mayores y las familias de nuestra comunidad. Por lo tanto, le insisto que represente los intereses de los electores a los que sirve.

Bloomington es el hogar de un grupo diverso de familias de clase trabajadora que han formado una comunidad vibrante con fuertes lazos a la vida rural y prácticas agrícolas autosuficientes. Sin embargo, una vez conocida por su pintoresco estilo de vida de pueblo pequeño en armonía con el mundo natural, Bloomington ha experimentado una afluencia masiva de desarrollo de almacenes, y un mar de concreto en constante crecimiento está consumiendo nuestros espacios verdes abiertos. Este cambio evidente en la estructura de nuestra comunidad ha alimentado una fuerte oposición pública al Proyecto Bloomington Business Park y el peligroso crecimiento de desarrollos de almacenes junto a casas, escuelas y parques. Si el destino del Proyecto Bloomington Business Park estuviera en manos de los miembros de nuestra comunidad, este proyecto no sería un tema de agenda. La comunidad hubieran rechazado rápidamente el proyecto con la dirección de la División de Planificación del Condado y priorizado los desarrollos enfocados en crear comunidad y fomentar un ecosistema seguro y saludable donde los residentes de Bloomington pueden cabalgar, trabajar y jugar porque los almacenes no son lo que los miembros de la comunidad han solicitado, y ciertamente no es lo que se merecen.

Por lo tanto, les recuerdo lo que se perderá irreversiblemente si se acepta el Bloomington Business Park Specific Plan. Más de 213 acres de terrenos residenciales y agrícolas se perderán en espacios industriales a menos de 100 pies de tres escuelas públicas (Bloomington High School, Ruth O Harris Middle School y Walter Zimmerman Elementary School). Nuestros espacios públicos peatonales y ecuestres se verán afectados negativamente por aproximadamente 9,000 viajes de vehículos y camiones en las carreteras del corazón de la comunidad. Sin duda, los vecindarios vibrantes y coloridos que valoramos serán reemplazados al cambiar el carácter y los valores de nuestra comunidad. Las familias

en nuestros vecindarios experimentarán el desplazamiento.

Mi posición inquebrantable es que los Comisionados de Planificación y la Junta de Supervisores del Condado de San Bernardino se oponen inequívocamente al Bloomington Business Park Specific Plan. Les pido que consideren alternativas a los proyectos de almacenes a través de la divulgación y un proceso de participación cívica para colaborar con los miembros de la comunidad de Bloomington para crear e implementar una planificación que permita a sus residentes disfrutar de una mejor calidad de vida ahora y para las generaciones futuras.

Reconozco que al enviar esta carta, estoy compartiendo mi nombre, correo electrónico, código postal y cualquier otra información de contacto que desee compartir con los Comisionados de Planificación de San Bernardino, la Junta de Supervisores, y mi información será parte del registro público.

Commissioner Planning Commission,

Me opongo firmemente al Bloomington Business Park Specific Plan propuesto.

Si se aprueba, este proyecto cambiará la composición de Bloomington y nuestro estilo de vida de crianza de ganado. Los impactos ambientales significativos de Bloomington Business Park son perjudiciales para la salud y el bienestar de los niños, las personas mayores y las familias de nuestra comunidad. Por lo tanto, le insisto que represente los intereses de los electores a los que sirve.

Bloomington es el hogar de un grupo diverso de familias de clase trabajadora que han formado una comunidad vibrante con fuertes lazos a la vida rural y prácticas agrícolas autosuficientes. Sin embargo, una vez conocida por su pintoresco estilo de vida de pueblo pequeño en armonía con el mundo natural, Bloomington ha experimentado una afluencia masiva de desarrollo de almacenes, y un mar de concreto en constante crecimiento está consumiendo nuestros espacios verdes abiertos. Este cambio evidente en la estructura de nuestra comunidad ha alimentado una fuerte oposición pública al Proyecto Bloomington Business Park y el peligroso crecimiento de desarrollos de almacenes junto a casas, escuelas y parques. Si el destino del Proyecto Bloomington Business Park estuviera en manos de los miembros de nuestra comunidad, este proyecto no sería un tema de agenda. La comunidad hubieran rechazado rápidamente el proyecto con la dirección de la División de Planificación del Condado y priorizado los desarrollos enfocados en crear comunidad y fomentar un ecosistema seguro y saludable donde los residentes de Bloomington pueden cabalgar, trabajar y jugar porque los almacenes no son lo que los miembros de la comunidad han solicitado, y ciertamente no es lo que se merecen.

Por lo tanto, les recuerdo lo que se perderá irreversiblemente si se acepta el Bloomington Business Park Specific Plan. Más de 213 acres de terrenos residenciales y agrícolas se perderán en espacios industriales a menos de 100 pies de tres escuelas públicas (Bloomington High School, Ruth O Harris Middle School y Walter Zimmerman Elementary School). Nuestros espacios públicos peatonales y ecuestres se verán afectados negativamente por aproximadamente 9,000 viajes de vehículos y camiones en las carreteras del corazón de la comunidad. Sin duda, los vecindarios vibrantes y coloridos que valoramos serán reemplazados al cambiar el carácter y los valores de nuestra comunidad. Las familias

en nuestros vecindarios experimentarán el desplazamiento.

Mi posición inquebrantable es que los Comisionados de Planificación y la Junta de Supervisores del Condado de San Bernardino se oponen inequívocamente al Bloomington Business Park Specific Plan. Les pido que consideren alternativas a los proyectos de almacenes a través de la divulgación y un proceso de participación cívica para colaborar con los miembros de la comunidad de Bloomington para crear e implementar una planificación que permita a sus residentes disfrutar de una mejor calidad de vida ahora y para las generaciones futuras.

Reconozco que al enviar esta carta, estoy compartiendo mi nombre, correo electrónico, código postal y cualquier otra información de contacto que desee compartir con los Comisionados de Planificación de San Bernardino, la Junta de Supervisores, y mi información será parte del registro público.

Commissioner Planning Commission,

Dear County of San Bernardino County Planning Commission and Board of Supervisors,

I am strongly opposed to the proposed Bloomington Business Park Specific Plan Project.

If approved, this project will change the makeup of Bloomington and our lifestyle of raising livestock. The Bloomington Business Park's significant environmental impacts are detrimental to the health and well-being of our community's children, seniors, and families. Therefore, I urge you to represent the interests of the constituents you serve.

Bloomington is home to a diverse group of working-class families who have formed a vibrant community with strong ties to rural living and self-sufficient farming practices. However, once known for its quaint small-town lifestyle in harmony with the natural world, Bloomington has experienced a massive influx of warehouse development, and an ever-growing sea of concrete is consuming our green open spaces. This evident change to the fabric of our community has fueled strong public opposition to the Bloomington Business Park Project and the dangerous growth of warehouse developments next to homes, schools, and parks. If the fate of the Bloomington Business Park Project were at the hands of our community members, this project would not be an agenda item. The community would have promptly rejected the project with direction to the County Planning Division and prioritized developments focused on creating community and fostering a safe and healthy ecosystem where Bloomington residents can ride, work and play because warehouses are not what community members have requested, and certainly not what they deserve.

Therefore, I remind you of what will be irreversibly lost if the Bloomington Business Park Project is accepted. Over 213 acres of residential and agricultural land will be lost to industrial space less than 100 ft. to three public schools (Bloomington High School, Ruth O Harris Middle School, and Walter Zimmerman Elementary School). Our pedestrian and equestrian public spaces will be negatively impacted by an estimated 9,000 vehicle and truck trips on roads in the heart of the community. Undoubtedly, the vibrant and colorful neighborhoods we value will be replaced by changing the character and values of our community. Families in our neighborhoods will experience displacement.

It is my unwavering position that the County of San Bernardino Planning Commissioners and

Board of Supervisors unequivocally oppose the Bloomington Business Park Specific Plan. I ask that you consider alternatives to warehouse projects through outreach and a civic engagement process to collaborate with Bloomington community members to create and implement planning that will allow its residents to enjoy a better quality of life now and for generations to come.

I acknowledge that by sending this letter, I am sharing my name, email, zip code, and any other contact information I want to share with the San Bernardino Planning Commissioners, Board of Supervisors, and my information will be part of the public record.

Commissioner Planning Commission,

Dear County of San Bernardino County Planning Commission and Board of Supervisors,

I am strongly opposed to the proposed Bloomington Business Park Specific Plan Project.

If approved, this project will change the makeup of Bloomington and our lifestyle of raising livestock. The Bloomington Business Park's significant environmental impacts are detrimental to the health and well-being of our community's children, seniors, and families. Therefore, I urge you to represent the interests of the constituents you serve.

Bloomington is home to a diverse group of working-class families who have formed a vibrant community with strong ties to rural living and self-sufficient farming practices. However, once known for its quaint small-town lifestyle in harmony with the natural world, Bloomington has experienced a massive influx of warehouse development, and an ever-growing sea of concrete is consuming our green open spaces. This evident change to the fabric of our community has fueled strong public opposition to the Bloomington Business Park Project and the dangerous growth of warehouse developments next to homes, schools, and parks. If the fate of the Bloomington Business Park Project were at the hands of our community members, this project would not be an agenda item. The community would have promptly rejected the project with direction to the County Planning Division and prioritized developments focused on creating community and fostering a safe and healthy ecosystem where Bloomington residents can ride, work and play because warehouses are not what community members have requested, and certainly not what they deserve.

Therefore, I remind you of what will be irreversibly lost if the Bloomington Business Park Project is accepted. Over 213 acres of residential and agricultural land will be lost to industrial space less than 100 ft. to three public schools (Bloomington High School, Ruth O Harris Middle School, and Walter Zimmerman Elementary School). Our pedestrian and equestrian public spaces will be negatively impacted by an estimated 9,000 vehicle and truck trips on roads in the heart of the community. Undoubtedly, the vibrant and colorful neighborhoods we value will be replaced by changing the character and values of our community. Families in our neighborhoods will experience displacement.

It is my unwavering position that the County of San Bernardino Planning Commissioners and

Board of Supervisors unequivocally oppose the Bloomington Business Park Specific Plan. I ask that you consider alternatives to warehouse projects through outreach and a civic engagement process to collaborate with Bloomington community members to create and implement planning that will allow its residents to enjoy a better quality of life now and for generations to come.

I acknowledge that by sending this letter, I am sharing my name, email, zip code, and any other contact information I want to share with the San Bernardino Planning Commissioners, Board of Supervisors, and my information will be part of the public record.

The Bloomington Business Park's significant environmental impacts are detrimental to the health and well-being of our community's children, seniors, and families. Therefore, I urge you to represent the interests of the constituents you serve.

The increased amount of diesel fueled truck traffic in our area will be detrimental to the health and wellbeing of the citizens of Bloomington, especially affecting the health of the children. Please read the following study by the Journal of the American Board of Family Medicine.: [www.jabfm.org/content/21/1/55](http://www.jabfm.org/content/21/1/55)

Bloomington is home to a diverse group of working-class families who have formed a vibrant community with strong ties to rural living and self-sufficient farming practices. Bloomington is not for sale! The ongoing industrialization of Bloomington is ruining our home. I grew up in Bloomington, graduated from Bloomington high school, and now I am being forced out of the neighborhood by all these factories coming in and buying up the land. The county should be looking out for the residents of Bloomington, not selling off our land to the highest bidder!

This evident change to the fabric of our community has fueled strong public opposition to the Bloomington Business Park Project and the dangerous growth of warehouse developments next to homes, schools, and parks. If the fate of the Bloomington Business Park Project were at the hands of our community members, this project would not be an agenda item. The community would have promptly rejected the project with direction to the County Planning Division and prioritized developments focused on creating community and fostering a safe and healthy ecosystem where Bloomington residents can ride, work and play because warehouses are not what community members have requested, and certainly not what they deserve.

Therefore, I remind you of what will be irreversibly lost if the Bloomington Business Park Project is accepted. Over 213 acres of residential and agricultural land will be lost to industrial space less than 100 ft. to three public schools (Bloomington High School, Ruth O Harris Middle School, and Walter Zimmerman Elementary School). Our pedestrian and equestrian public spaces will be negatively impacted by an estimated 9,000 vehicle and truck trips on roads in the heart of the community. Undoubtedly, the vibrant and colorful neighborhoods we value will be replaced by changing the character and values of our community. Families in our neighborhoods will experience displacement.

It is my unwavering position that the County of San Bernardino Planning Commissioners and

Board of Supervisors unequivocally oppose the Bloomington Business Park Specific Plan. I ask that you consider alternatives to warehouse projects through outreach and a civic engagement process to collaborate with Bloomington community members to create and implement planning that will allow its residents to enjoy a better quality of life now and for generations to come.

I acknowledge that by sending this letter, I am sharing my name, email, zip code, and any other contact information I want to share with the San Bernardino Planning Commissioners, Board of Supervisors, and my information will be part of the public record.

Commissioner Planning Commission,

Dear County of San Bernardino County Planning Commission and Board of Supervisors,

I am strongly opposed to the proposed Bloomington Business Park Specific Plan Project.

If approved, this project will change the makeup of Bloomington and our lifestyle of raising livestock. The Bloomington Business Park's significant environmental impacts are detrimental to the health and well-being of our community's children, seniors, and families. Therefore, I urge you to represent the interests of the constituents you serve.

Bloomington is home to a diverse group of working-class families who have formed a vibrant community with strong ties to rural living and self-sufficient farming practices. However, once known for its quaint small-town lifestyle in harmony with the natural world, Bloomington has experienced a massive influx of warehouse development, and an ever-growing sea of concrete is consuming our green open spaces. This evident change to the fabric of our community has fueled strong public opposition to the Bloomington Business Park Project and the dangerous growth of warehouse developments next to homes, schools, and parks. If the fate of the Bloomington Business Park Project were at the hands of our community members, this project would not be an agenda item. The community would have promptly rejected the project with direction to the County Planning Division and prioritized developments focused on creating community and fostering a safe and healthy ecosystem where Bloomington residents can ride, work and play because warehouses are not what community members have requested, and certainly not what they deserve.

Therefore, I remind you of what will be irreversibly lost if the Bloomington Business Park Project is accepted. Commissioner Planning Commission,

Dear County of San Bernardino County Planning Commission and Board of Supervisors,

I have lived in Bloomington all of my life and there has only been one objective in the community's "growth" which is money. Not money growth in small businesses rather, the interest in growing ones own money related to those of higher power. Aside from your moves in the past, it is disappointing to see that you do not look for the best interest of those who have actually been here their entire lives. I wonder if you all actually look for the best in our community because y'all are doing quite the opposite. I also doubt that any of you board members live within Bloomington to get a taste what it's like to live in such a compact, corrupt, dirty, and disorganized community all because the "higher-ups" look for the best interest of THEMSELVES. A community works with each other, you do the opposite. I hope you really consider the health of everyone in Bloomington and around. No wonder people are leaving California as a whole.

I am strongly opposed to the proposed Bloomington Business Park Specific Plan Project.

If approved, this project will change the makeup of Bloomington and our lifestyle of raising livestock. The Bloomington Business Park's significant environmental impacts are detrimental to the health and well-being of our community's children, seniors, and families. Therefore, I urge you to represent the interests of the constituents you serve.

Bloomington is home to a diverse group of working-class families who have formed a vibrant community with strong ties to rural living and self-sufficient farming practices. Commissioner Planning Commission,

Dear County of San Bernardino County Planning Commission and Board of Supervisors,

I am strongly opposed to the proposed Bloomington Business Park Specific Plan Project.

The Bloomington Business Park is additional warehouse development in a community that is already disproportionally impacted by warehouses, rail, and the I-10 Freeway. This community is surrounded by warehouses to the west in Ontario, Jurupa, and Fontana, and to the East in Rialto and Colton. Adding additional warehouses into this mix will have a harmful impact on NOx emissions, CO2 emissions, and local exposure to carcinogenic Diesel PM.

Warehouse growth in the Inland Empire is already at unsustainable levels. San Bernardino is averaging an additional 30M+ square feet of warehouses annually over the last decade. This warehouse growth is overconcentrating the economy in a sector that is being quickly automated. When a recession in the goods movement industry occurs, San Bernardino's exposure will be greater than any other County in the United States.

As a resident of Riverside County, I wanted to note that the impacts of these warehouses aren't just important for the local community. This project will emit hundreds of tons of greenhouse gases that affect our climate, and will emit hundreds of pounds of NOx which contributes to our regional ozone problem. As you are well aware, San Bernardino has the worst ozone air quality in the nation, followed by Riverside County at number 2. Our whole Inland region is bringing tens of thousands of additional truck trips daily, which undermines our regional air quality. Adding more trucks to the road offsets the technological improvements in truck emissions. We need active leadership from our elected politicians to stop permitting unwanted local land-use decisions that harm our communities, our air, and our freeways.

Say No to Warehouses.

This evident change to the fabric of our community has fueled strong public opposition to the Bloomington Business Park Project and the dangerous growth of warehouse developments next to homes, schools, and parks. If the fate of the Bloomington Business Park Project were at the hands of our community members, this project would not be an agenda item. The community would have promptly rejected the project with direction to the County Planning Division and prioritized developments focused on creating community and fostering a safe and healthy ecosystem where Bloomington residents can ride, work and play because warehouses are not what community members have requested, and certainly not what they deserve.

Therefore, I remind you of what will be irreversibly lost if the Bloomington Business Park Project is accepted. Over 213 acres of residential and agricultural land will be lost to industrial space less than 100 ft. to three public schools (Bloomington High School, Ruth O Harris Middle School, and Walter Zimmerman Elementary School). Our pedestrian and equestrian public spaces will be negatively impacted by an estimated 9,000 vehicle and truck trips on roads in the heart of the community. Undoubtedly, the vibrant and colorful neighborhoods we value will be replaced by changing the character and values of our community. Families in our neighborhoods will experience displacement.

It is my unwavering position that the County of San Bernardino Planning Commissioners and

Board of Supervisors unequivocally oppose the Bloomington Business Park Specific Plan. I ask that you consider alternatives to warehouse projects through outreach and a civic engagement process to collaborate with Bloomington community members to create and implement planning that will allow its residents to enjoy a better quality of life now and for generations to come.

I acknowledge that by sending this letter, I am sharing my name, email, zip code, and any other contact information I want to share with the San Bernardino Planning Commissioners, Board of Supervisors, and my information will be part of the public record.

Commissioner Planning Commission,

Dear County of San Bernardino County Planning Commission and Board of Supervisors,

I am strongly opposed to the proposed Bloomington Business Park Specific Plan Project.

If approved, this project will change the makeup of Bloomington and our lifestyle of raising livestock. The Bloomington Business Park's significant environmental impacts are detrimental to the health and well-being of our community's children, seniors, and families. Therefore, I urge you to represent the interests of the constituents you serve.

Bloomington is home to a diverse group of working-class families who have formed a vibrant community with strong ties to rural living and self-sufficient farming practices. However, once known for its quaint small-town lifestyle in harmony with the natural world, Bloomington has experienced a massive influx of warehouse development, and an ever-growing sea of concrete is consuming our green open spaces. This evident change to the fabric of our community has fueled strong public opposition to the Bloomington Business Park Project and the dangerous growth of warehouse developments next to homes, schools, and parks. If the fate of the Bloomington Business Park Project were at the hands of our community members, this project would not be an agenda item. The community would have promptly rejected the project with direction to the County Planning Division and prioritized developments focused on creating community and fostering a safe and healthy ecosystem where Bloomington residents can ride, work and play because warehouses are not what community members have requested, and certainly not what they deserve.

Therefore, I remind you of what will be irreversibly lost if the Bloomington Business Park Project is accepted. I am a neighbor from Riverside, CA who has seen the character of the Inland Empire changing over the last decade because politicians appear to be willing to sacrifice long-term community-building and planning for easy money. Communities are being hemmed in by warehouses that provide nothing but low-wage jobs which will eventually be automated, traffic issues, and the worst air quality of any region in the United States. Already 40% of the nation's goods come through our region by truck and train. The Inland Empire has already borne an undue burden for e-commerce. Please choose your community over easy money, Listen to what your constituents in Bloomington are telling you. It affects all of us.

Dear San Bernardino County Planning Commission and Board of Supervisors,

I support the Bloomington Business Park.

This project will provide an unprecedented investment in Bloomington, including the addition of miles of new roads with sidewalks and lighting, over \$1 million annually to support public safety in Bloomington ONLY, thousands of new jobs, and a new state-of-the-art school. This historic investment in Bloomington will benefit the community for decades to come.

Please support the Bloomington Business Park.

This evident change to the fabric of our community has fueled strong public opposition to the Bloomington Business Park Project and the dangerous growth of warehouse developments next to homes, schools, and parks. If the fate of the Bloomington Business Park Project were at the hands of our community members, this project would not be an agenda item. The community would have promptly rejected the project with direction to the County Planning Division and prioritized developments focused on creating community and fostering a safe and healthy ecosystem where Bloomington residents can ride, work and play because warehouses are not what community members have requested, and certainly not what they deserve.

Therefore, I remind you of what will be irreversibly lost if the Bloomington Business Park Project is accepted. Over 213 acres of residential and agricultural land will be lost to industrial space less than 100 ft. to three public schools (Bloomington High School, Ruth O Harris Middle School, and Walter Zimmerman Elementary School). Our pedestrian and equestrian public spaces will be negatively impacted by an estimated 9,000 vehicle and truck trips on roads in the heart of the community. Undoubtedly, the vibrant and colorful neighborhoods we value will be replaced by changing the character and values of our community. Families in our neighborhoods will experience displacement.

It is my unwavering position that the County of San Bernardino Planning Commissioners and

Board of Supervisors unequivocally oppose the Bloomington Business Park Specific Plan. I ask that you consider alternatives to warehouse projects through outreach and a civic engagement process to collaborate with Bloomington community members to create and implement planning that will allow its residents to enjoy a better quality of life now and for generations to come.

I acknowledge that by sending this letter, I am sharing my name, email, zip code, and any other contact information I want to share with the San Bernardino Planning Commissioners, Board of Supervisors, and my information will be part of the public record.

Commissioner Planning Commission,

Dear County of San Bernardino County Planning Commission and Board of Supervisors,

I am strongly opposed to the proposed Bloomington Business Park Specific Plan Project.

If approved, this project will change the makeup of Bloomington and our lifestyle of raising livestock. The Bloomington Business Park's significant environmental impacts are detrimental to the health and well-being of our community's children, seniors, and families. Therefore, I urge you to represent the interests of the constituents you serve.

Bloomington is home to a diverse group of working-class families who have formed a vibrant community with strong ties to rural living and self-sufficient farming practices. However, once known for its quaint small-town lifestyle in harmony with the natural world, Bloomington has experienced a massive influx of warehouse development, and an ever-growing sea of concrete is consuming our green open spaces. This evident change to the fabric of our community has fueled strong public opposition to the Bloomington Business Park Project and the dangerous growth of warehouse developments next to homes, schools, and parks. If the fate of the Bloomington Business Park Project were at the hands of our community members, this project would not be an agenda item. The community would have promptly rejected the project with direction to the County Planning Division and prioritized developments focused on creating community and fostering a safe and healthy ecosystem where Bloomington residents can ride, work and play because warehouses are not what community members have requested, and certainly not what they deserve.

Therefore, I remind you of what will be irreversibly lost if the Bloomington Business Park Project is accepted. Over 213 acres of residential and agricultural land will be lost to industrial space less than 100 ft. to three public schools (Bloomington High School, Ruth O Harris Middle School, and Walter Zimmerman Elementary School). Our pedestrian and equestrian public spaces will be negatively impacted by an estimated 9,000 vehicle and truck trips on roads in the heart of the community. Commissioner Planning Commission,

Me opongo firmemente al Bloomington Business Park Specific Plan propuesto.

Si se aprueba, este proyecto cambiará la composición de Bloomington y nuestro estilo de vida de crianza de ganado. Los impactos ambientales significativos de Bloomington Business Park son perjudiciales para la salud y el bienestar de los niños, las personas mayores y las familias de nuestra comunidad. Por lo tanto, le insisto que represente los intereses de los electores a los que sirve.

Bloomington es el hogar de un grupo diverso de familias de clase trabajadora que han formado una comunidad vibrante con fuertes lazos a la vida rural y prácticas agrícolas autosuficientes. Sin embargo, una vez conocida por su pintoresco estilo de vida de pueblo pequeño en armonía con el mundo natural, Bloomington ha experimentado una afluencia masiva de desarrollo de almacenes, y un mar de concreto en constante crecimiento está consumiendo nuestros espacios verdes abiertos. Este cambio evidente en la estructura de nuestra comunidad ha alimentado una fuerte oposición pública al Proyecto Bloomington Business Park y el peligroso crecimiento de desarrollos de almacenes junto a casas, escuelas y parques. Si el destino del Proyecto Bloomington Business Park estuviera en manos de los miembros de nuestra comunidad, este proyecto no sería un tema de agenda. La comunidad hubieran rechazado rápidamente el proyecto con la dirección de la División de Planificación del Condado y priorizado los desarrollos enfocados en crear comunidad y fomentar un ecosistema seguro y saludable donde los residentes de Bloomington pueden cabalgar, trabajar y jugar porque los almacenes no son lo que los miembros de la comunidad han solicitado, y ciertamente no es lo que se merecen.

Por lo tanto, les recuerdo lo que se perderá irreversiblemente si se acepta el Bloomington Business Park Specific Plan. Más de 213 acres de terrenos residenciales y agrícolas se perderán en espacios industriales a menos de 100 pies de tres escuelas públicas (Bloomington High School, Ruth O Harris Middle School y Walter Zimmerman Elementary School). Nuestros espacios públicos peatonales y ecuestres se verán afectados negativamente por aproximadamente 9,000 viajes de vehículos y camiones en las carreteras del corazón de la comunidad. Sin duda, los vecindarios vibrantes y coloridos que valoramos serán reemplazados al cambiar el carácter y los valores de nuestra comunidad. Las familias

en nuestros vecindarios experimentarán el desplazamiento.

Mi posición inquebrantable es que los Comisionados de Planificación y la Junta de Supervisores del Condado de San Bernardino se oponen inequívocamente al Bloomington Business Park Specific Plan. Les pido que consideren alternativas a los proyectos de almacenes a través de la divulgación y un proceso de participación cívica para colaborar con los miembros de la comunidad de Bloomington para crear e implementar una planificación que permita a sus residentes disfrutar de una mejor calidad de vida ahora y para las generaciones futuras.

Reconozco que al enviar esta carta, estoy compartiendo mi nombre, correo electrónico, código postal y cualquier otra información de contacto que desee compartir con los Comisionados de Planificación de San Bernardino, la Junta de Supervisores, y mi información será parte del registro público.

Honorable Commissioners,

I wrote to you today to state my opposition to the Bloomington Business Park Specific Plan. I urge you to vote to oppose this warehouse project.

While I am not a resident of San Bernardino or Bloomington, the cumulative impacts of the ongoing development in warehouses has a regional impact that affects the air quality and quality of life of all residents of the Inland Empire. This project will add tons of greenhouse gases and hundreds of pounds of NOx to the region daily. It will exacerbate climate change. It will cause more ozone exceedances in the Inland Empire. It will cause more truck trips along crumbling freeways that are already falling apart under the cumulative impacts of hundreds of thousands of trucks.

The negative environmental and health impacts of this project are not mitigated locally. The siting of these warehouses next to multiple schools will harm the students during recess and PE.

Finally, the IE is already far too overconcentrated and dependent upon goods movement as a source of jobs. If and when a recession in goods movement occurs, the IE will suffer a dramatic contraction due to a lack of diversification in our economic base.

Please listen to the voices of your residents and reject this project in its entirety. It does not meet the needs of the community or the region. It is a poor project that doesn't elevate the county economically, environmentally, or in quality of life.

Your neighbor,  
Mike McCarthy
