

Interoffice Memo

DATE: March 7, 2023

PHONE: 909-387-0235

FROM: **JIM MORRISSEY**, Planner *JM*
Land Use Services Department

TO: **HONORABLE PLANNING COMMISSION**

SUBJECT: **PROJ-2020-00191; APPLICANT: ROBOTT LAND COMPANY (AGENDA ITEM #4)**

Since the distribution of the staff report, staff discovered an error in the Project Description in the Conditions of Approval (Exhibit A of the staff report). The description included the original proposal, which has subsequently changed. Specifically, the proposal excluded the proposed outdoor music festivals. The attached Conditions of Approval have been revised to reflect the current Project Description for your consideration, as detailed below:

Conditional Use Permit to establish a destination resort consisting of tent camping (glamping) with support facilities, including restaurant/bar, reception area/store, trails and paths, recreation buildings, ~~an area for outdoor music festivals~~, and helipad on approximately 640 acres. The Project site is located at 2107 Old Woman Springs Road, southeast corner of Luna Vista Lane and Old Woman Springs Rd.

Attachment: Revised Conditions of Approval

HD/lb

Conditions of Approval

Record: PROJ-2020-00191

Description:

Conditional Use Permit to establish a destination resort consisting of tent camping (glamping) with support facilities, including restaurant/bar, reception area/store, trails and paths, recreation buildings, and helipad on approximately 640 acres. The Project site is located at 2107 Old Woman Springs Road, southeast corner of Luna Vista Lane and Old Woman Springs Rd.

Informational

Land Use Services - Building and Safety

1. Organized Camps and Special Occupancy Parks: Organized Camps and Special Occupancy Parks (RV Parks, campgrounds, etc.) are under the jurisdiction of California Housing and Community Development (HCD) [CCHSC 18862.23]. Please contact CA HCD – Riverside District Office at (951)782- 4431 for information.

County Fire - Community Safety

2. Permit Expiration: Construction permits, including Fire Condition Letters, shall automatically expire and become invalid unless the work authorized by such permit is commenced within 180 days after its issuance, or if the work authorized by such permit is suspended or abandoned for a period of 180 days after the time the work is commenced. Suspension or abandonment shall mean that no inspection by the Department has occurred with 180 days of any previous inspection. After a construction permit or Fire Condition Letter, becomes invalid and before such previously approved work recommences, a new permit shall be first obtained and the fee to recommence work shall be one-half the fee for the new permit for such work, provided no changes have been made or will be made in the original construction documents for such work, and provided further that such suspension or abandonment has not exceeded one year. A request to extend the Fire Condition Letter or Permit may be made in writing PRIOR TO the expiration date justifying the reason that the Fire Condition Letter should be extended.
3. Additional Requirements: In addition to the Fire requirements stated herein, other onsite and offsite improvements may be required which cannot be determined from tentative plans at this time and would have to be reviewed after more complete improvement plans and profiles have been submitted to this office.
4. Access – 150+ feet: Roadways exceeding one hundred fifty (150) feet in length shall be approved by the Fire Department. These shall be extended to within one hundred fifty (150) feet of and shall give reasonable access to all portions of the exterior walls of the first story of any building.
5. Jurisdiction: The above referenced project is under the jurisdiction of the San Bernardino County Fire Department herein "Fire Department". Prior to any construction occurring on any parcel, the applicant shall contact the Fire Department for verification of current fire protection requirements. All new construction shall comply with the current California Fire Code requirements and all applicable status, codes, ordinances and standards of the Fire Department.
6. Private Road Maintenance: The applicant shall construct and maintain all such roads. In addition, the applicant shall provide to the Fire Department a signed maintenance agreement as detailed in the General Requirement conditions for ongoing road maintenance and snow removal (where applicable). This shall include all primary and secondary access routes that are not otherwise maintained by a public agency.
7. Sprinkler Installation Letter: The applicant shall submit a letter to the Fire Department agreeing and committing to installation of a fire protection system prior to the building inspection for drywall and insulation.
8. Access – 30% slope: Where the natural grade between the access road and building is in excess of thirty percent (30%), an access road shall be provided within one hundred and fifty (150) feet of all buildings. Where such access cannot be provided, a fire protection system shall be installed. Plans shall be submitted to and approved by the Fire Department.
9. Fire Control Plan: A Fire Control Plan shall be prepared, if required by the Fire Department, to reduce the potential for fires related to the Project, including the operation of the proposed fire pits.

Conditions of Approval

Land Use Services - Land Development

10. Tributary Drainage: Adequate provisions should be made to intercept and conduct the tributary off site - on site drainage flows around and through the site in a manner, which will not adversely affect adjacent or downstream properties at the time the site is developed.
11. Erosion Control Installation: Erosion control devices must be installed and maintained at all perimeter openings and slopes throughout the construction of the project. No sediment is to leave the job site.
12. Additional Drainage Requirements: In addition to drainage requirements stated herein, other "on-site" and/or "off-site" improvements may be required which cannot be determined from tentative plans at this time and would have to be reviewed after more complete improvement plans and profiles have been submitted to this office.
13. Natural Drainage: The natural drainage courses traversing the site shall not be occupied or obstructed.

On-going

Land Use Services – Planning

14. Helipad: The proposed helipad is only to be used for emergency medical conditions. No aerial tours or other non-medical operations are to occur from the proposed helipad.
15. Development Impact Fees: Additional fees may be required prior to issuance of development permits. Fees shall be paid as specified in adopted fee ordinances
16. Clear Sight Triangle: Adequate visibility for vehicular and pedestrian traffic shall be provided at clear sight triangles at all 90 degree angle intersections of public rights-of-way and private driveways. All signs, structures and landscaping located within any clear sight triangle shall comply with the height and location requirements specified by County Development Code (SBCC§ 83.02.030) or as otherwise required by County Traffic.
17. Mitigation Measure CR-2: If, at any time, evidence of human remains (or suspected human remains) are uncovered, the County Coroner must be contacted immediately and permitted to examine the find in situ. A buffer must be established around the find (minimum of 50 feet) and the consulting archaeologist must also be notified. If the remains are determined to be of Native American origin, the Coroner will contact the Native American Heritage Commission and the Most Likely Descendant (MLD) will be named. In consultation with the MLD, the County, project proponent, and consulting archaeologist, the disposition of the remains will be determined. Any costs incurred will be the responsibility of the project proponent/property owner.

If the remains are determined to be archaeological, but non-Native American, the consulting archaeologist will oversee the removal, analysis, and disposition of the remains. Any costs incurred will be the responsibility of the project proponent/property owner.

If the remains are determined to be of forensic value, the County Coroner will arrange for their removal, analysis, and disposition. The Coroner's activities will not involve any costs to the project proponent/property owner.

18. Mitigation Measure TCR-1: Cultural sensitivity training should be incorporated into employee orientations.
19. Continuous Effect/Revocation: All of the conditions of this project approval are continuously in effect throughout the operative life of the project for all approved structures and approved land uses/activities. Failure of the property owner or developer to comply with any or all of the conditions at any time may result in a public hearing and possible revocation of the approved land use, provided adequate notice, time and opportunity is provided to the property owner, developer or other interested party to correct the non-complying situation.
20. Revisions: Any proposed change to the approved Project and/or conditions of approval shall require that an additional land use application (e.g. Revision to an Approved Action) be submitted to County Land Use Services for review and approval.
21. Construction Hours: Construction will be limited to the hours of 7:00 a.m. to 7:00 p.m., Monday through Saturday in accordance with the County of San Bernardino Development Code standards. No construction activities are permitted outside of these hours or on Sundays and Federal holidays.
22. Cultural Resources: During grading or excavation operations, should any potential paleontological or archaeological artifacts be unearthed or otherwise discovered, the San Bernardino County Museum shall be notified and the uncovered items shall be preserved and curated, as required. For information, contact the County Museum, Community and Cultural Section, telephone (909) 798-8570.

Conditions of Approval

23. Extension of Time: Extensions of time to the expiration date (listed above or as otherwise extended) may be granted in increments each not to exceed an additional three years beyond the current expiration date. An application to request consideration of an extension of time may be filed with the appropriate fees no less than thirty days before the expiration date. Extensions of time may be granted based on a review of the application, which includes a justification of the delay in construction and a plan of action for completion. The granting of such an extension request is a discretionary action that may be subject to additional or revised conditions of approval or site plan modifications. (SBCC §86.06.060)
24. Lighting: Lighting shall comply with Table 83-7 "Shielding Requirements for Outdoor Lighting in the Mountain Region and Desert Region" of the County's Development Code (i.e. "Dark Sky" requirements). All lighting shall be limited to that necessary for maintenance activities and security purposes. This is to allow minimum obstruction of night sky remote area views. No light shall project onto adjacent roadways in a manner that interferes with on-coming traffic. All signs proposed by this project shall only be lit by steady, stationary, shielded light directed at the sign, by light inside the sign, by direct stationary neon lighting or in the case of an approved electronic message center sign, an alternating message no more than once every five seconds.
25. Underground Utilities: No new above-ground power or communication lines shall be extended to the site. All required utilities shall be placed underground in a manner that complies with the California Public Utilities Commission General Order 128, and avoids disturbing any existing/natural vegetation or the site appearance.
26. Occupancy Condition: The applicant shall obtain approval from the California Department of Housing and Community Development once entitlement has been granted by the County of San Bernardino. The County and State shall review and approve applicable requirements for issuance of permits during the development of the Project.
27. Performance Standards: The approved land uses shall operate in compliance with the general performance standards listed in the County Development Code Chapter 83.01, regarding air quality, electrical disturbance, fire hazards (storage of flammable or other hazardous materials), heat, noise, vibration, and the disposal of liquid waste.
28. Additional Permits: The developer shall ascertain compliance with all laws, ordinances, regulations and any other requirements of Federal, State, County and Local agencies that may apply for the development and operation of the approved land use. These may include but are not limited to: a. FEDERAL: b. STATE: c. COUNTY: d. LOCAL:
29. Construction Noise: The following measures shall be adhered to during the construction phase of the project: - All construction equipment shall be muffled in accordance with manufacturer's specifications. - All construction staging shall be performed as far as possible from occupied dwellings. The location of staging areas shall be subject to review and approval by the County prior to the issuance of grading and/or building permits. - All stationary construction equipment shall be placed in a manner so that emitted noise is directed away from sensitive receptors (e.g. residences and schools) nearest the project site.
30. Project Account: The Project account number is PROJ-2020-00191 This is an actual cost project with a deposit account to which hourly charges are assessed by various county agency staff (e.g. Land Use Services, Public Works, and County Counsel). Upon notice, the "developer" shall deposit additional funds to maintain or return the account to a positive balance. The "developer" is responsible for all expense charged to this account. Processing of the project shall cease, if it is determined that the account has a negative balance and that an additional deposit has not been made in a timely manner. A minimum balance of \$2,000.00 must be in the project account at the time the Condition Compliance Review is initiated. Sufficient funds must remain in the account to cover the charges during each compliance review. All fees required for processing shall be paid in full prior to final inspection, occupancy and operation of the approved use.
31. Project Approval Description (CUP/MUP): This Conditional Use Permit is conditionally approved to permit camping (glamping) with support facilities, including restaurant and bar, reception area/store, and art barn, with 75 camp sites in compliance with the San Bernardino County Code (SBCC), California Building Codes (CBC), the San Bernardino County Fire Code (SBCFC), the following Conditions of Approval, the approved site plan, and all other required and approved reports and displays (e.g. elevations). The developer shall provide a copy of the approved conditions and the approved site plan to every current and future project tenant, lessee, and property owner to facilitate compliance with these Conditions of Approval and continuous use requirements for the Project.

Conditions of Approval

32. Continuous Maintenance: The Project property owner shall continually maintain the property so that it is visually attractive and not dangerous to the health, safety and general welfare of both on-site users (e.g. employees) and surrounding properties. The property owner shall ensure that all facets of the development are regularly inspected, maintained and that any defects are timely repaired. Among the elements to be maintained, include but are not limited to: a) Annual maintenance and repair: The developer shall conduct inspections for any structures, fencing/walls, driveways, and signs to assure proper structural, electrical, and mechanical safety. b) Graffiti and debris: The developer shall remove graffiti and debris immediately through weekly maintenance. c) Landscaping: The developer shall maintain landscaping in a continual healthy thriving manner at proper height for required screening. Drought-resistant, fire retardant vegetation shall be used where practicable. Where landscaped areas are irrigated it shall be done in a manner designed to conserve water, minimizing aerial spraying. d) Dust control: The developer shall maintain dust control measures on any undeveloped areas where landscaping has not been provided. e) Erosion control: The developer shall maintain erosion control measures to reduce water runoff, siltation, and promote slope stability. f) External Storage: The developer shall maintain external storage, loading, recycling and trash storage areas in a neat and orderly manner, and fully screened from public view. Outside storage shall not exceed the height of the screening walls. g) Metal Storage Containers: The developer shall NOT place metal storage containers in loading areas or other areas unless specifically approved by this or subsequent land use approvals. h) Screening: The developer shall maintain screening that is visually attractive. All trash areas, loading areas, mechanical equipment (including roof top) shall be screened from public view. i) Signage: The developer shall maintain all on-site signs, including posted area signs (e.g. "No Trespassing") in a clean readable condition at all times. The developer shall remove all graffiti and repair vandalism on a regular basis. Signs on the site shall be of the size and general location as shown on the approved site plan or subsequently a County-approved sign plan. j) Lighting: The developer shall maintain any lighting so that they operate properly for safety purposes and do not project onto adjoining properties or roadways. Lighting shall adhere to applicable glare and night light rules. k) Parking and on-site circulation: The developer shall maintain all parking and on-site circulation requirements, including surfaces, all markings and traffic/directional signs in an un-faded condition as identified on the approved site plan. Any modification to parking and access layout requires the Planning Division review and approval. The markings and signs shall be clearly defined, un-faded and legible; these include parking spaces, disabled space and access path of travel, directional designations and signs, stop signs, pedestrian crossing, speed humps and "No Parking", "Carpool", and "Fire Lane" designations. l) Fire Lanes: The developer shall clearly define and maintain in good condition at all times all markings required by the Fire Department, including "No Parking" designations and "Fire Lane" designations.
33. Expiration: This project permit approval shall expire and become void if it is not "exercised" within 36 months of the effective date of this approval, unless an extension of time is approved. The permit is deemed "exercised" when either: (a.) The permittee has commenced actual construction or alteration under a validly issued building permit, or (b.) The permittee has substantially commenced the approved land use or activity on the project site, for those portions of the project not requiring a building permit. (SBCC §86.06.060) (c.) Occupancy of approved land use, occupancy of completed structures and operation of the approved and exercised land use remains valid continuously for the life of the project and the approval runs with the land, unless one of the following occurs: - Construction permits for all or part of the project are not issued or the construction permits expire before the structure is completed and the final inspection is approved. - The land use is determined by the County to be abandoned or non-conforming. - The land use is determined by the County to be not operating in compliance with these conditions of approval, the County Code, or other applicable laws, ordinances or regulations. In these cases, the land use may be subject to a revocation hearing and possible termination. PLEASE NOTE: This will be the ONLY notice given of this approval's expiration date. The developer is responsible to initiate any Extension of Time application.
34. Operational Criteria:
- General*
1. No off road vehicle use by guests shall be allowed including but not limited to sports utility vehicles, ATVs, motorcycles/dirt bikes, bicycles and scooters.
 2. No accommodations for equestrian activities are proposed nor allowed.
 3. No travel trailers, motor homes or campers shall be allowed on -site.
 4. No parking of personal vehicles is permitted at individual camp sites. Temporary access for loading/unloading only. All guest vehicles must be moved to the parking lot.
 5. No harvesting of native plants is permitted by visitors.

Conditions of Approval

Site Lighting

1. Site lighting shall be in compliance with County Development Code Section 83.07.040 Glare and Outdoor Lighting - Mountain and Desert Regions:
 - a. Maximum height. Residential pole lighting shall not exceed 12 feet in height.
 - b. Shielding requirements. New permitted lighting for new construction, unless exempt in compliance with Subsection 83.07.040(e) (Exempt lighting and fixtures), below, shall be shielded in compliance with the requirements outlined in Table 83-7 (Shielding Requirements for Outdoor Lighting in the Mountain Region and Desert Region), in order to preclude light pollution or light trespass on:
 - (A) Adjacent property;
 - (B) Other property within the line of sight (direct or reflected) of the light source; or
 - (C) Members of the public who may be traveling on adjacent roadways or rights-of-way.
 - c. Private recreational facilities shall not be illuminated between the hours of 11:00 p.m. and sunrise.
 - d. Also refer to the County's recent Dark Sky Ordinance for additional requirements.

Signs

1. Utilize reflective paint on directional signs to reduce the need for illumination.
2. Apply reflective paint on posts/rocks to indicate edge of roadway/drives and parking areas.

Noise

1. Noise levels shall be in compliance with San Bernardino County Development Code for maximum sound levels at the property lines. Daytime = 55 dBA, nighttime = 45 dBA.
2. Nighttime outdoor activities such as the use of the fire pits shall cease at 11 pm.
3. No unnecessary mechanically or electronically (e.g. music, refuse collection, exterior maintenance activities) generated noise is permitted between 11 PM and 5 AM, with the exception of an emergency. Incidental noise, such as air conditioning compressors, septic systems, and on-site security is not part of this restriction.

Campfires

Campfires shall only be within the designated fire pits as shown on the Site Plan. Use of fire pits shall be controlled by a Campsite employee. No individual campfires shall be allowed.

Public Health– Environmental Health Services

35. Refuse Storage and Disposal: All refuse generated at the premises shall at all times be stored in approved containers and shall be placed in a manner so that environmental public health nuisances are minimized. All refuse not containing garbage shall be removed from the premises at least 1 time per week, or as often as necessary to minimize public health nuisances. Refuse containing garbage shall be removed from the premises at least 2 times per week, or as often if necessary to minimize public health nuisances, by a permitted hauler to an approved solid waste facility in conformance with San Bernardino County Code Chapter 8, Section 33.0830 et. seq. For information, please call EHS/LEA at: 1-800-442- 2283.
36. Noise Levels: Noise level shall be maintained at or below County Standards, Development Code Section 83.01.080. For information, please call EHS at 1-800-442-2283.
37. Wastewater Treatment. The onsite wastewater treatment system shall be maintained so as not to create a public nuisance and shall be serviced by an EHS permitted pumper.

Public Works – Solid Waste Management

38. Franchise Hauler Service Area – This project falls within a County Franchise Area. If subscribing for the collection and removal of construction and demolition waste from the project site, all developers, contractors, and subcontractors shall be required to receive services through the grantee holding a franchise agreement in the corresponding County Franchise Area (Burrtec Waste Industries).
39. Recycling Storage Capacity – The developer shall provide adequate space and storage bins for both refuse and recycling materials. This requirement is to assist the County in compliance with the recycling requirements of Assembly Bill (AB) 2176.
40. Mandatory Commercial Recycling – Beginning July 1, 2012 all businesses defined to include a commercial or public entity that generates 4 or more cubic yards of commercial waste a week or is a multi-family residential dwelling of 5 units or more are required to arrange for recycling services. The County is required to monitor commercial recycling and will require businesses to provide recycling information. This requirement is to assist the County in compliance with AB 341.

Conditions of Approval

41. Mandatory Trash Service – This property falls within a Uniform Handling Service area. All owners of a dwelling or a commercial or industrial unit within the uniform handling area shall, upon notice thereof, be required to accept uniform handling service from the grantee holding a franchise agreement and pay the rate of such services. This requirement is a stipulation of County Code Title 4, Division 6, Chapter 5, Section 46.0501.
42. Mandatory Commercial Organics Recycling – As of January 1, 2019, AB 1826 (Enacted October 2014) requires businesses that generate four (4) cubic yards of solid waste per week to recycle their organic waste. A business generating organic waste shall arrange for the recycling services in a manner that is consistent with state and local laws and requirements, including a local ordinance or local jurisdiction's franchise agreement, applicable to the collection, handling, or recycling of solid and organic waste or arrange for separate organic waste collection and recycling services, until the local ordinance or local jurisdiction's franchise agreement includes organic waste recycling services. A business that is a property owner may require a lessee or tenant of that property to source separate their organic waste to aid in compliance. **Additionally, all businesses that contract for gardening or landscaping services must stipulate that the contractor recycle the resulting gardening or landscaping waste.** Residential multifamily dwellings of five (5) or more units are required to recycle organics; however, they are not required to arrange for recycling services specifically for food waste. Applicant will be required to report to the County on efforts to recycle organics materials once operational.

Public Works – Traffic Division

43. Traffic Division: Project vehicles shall not back up into the project site nor shall they back out into the public roadway.

Prior to Land Disturbance

Land Use Services - Land Development

44. Grading Plans: Grading and Erosion control plans shall be submitted for review and approval obtained, prior to construction. All Drainage and WQMP improvements shall be shown on the Grading plans according to the approved Drainage study and WQMP reports. Fees for grading plans will be collected upon submittal to the Land Development Division and are determined based on the amounts of cubic yards of cut and fill. Fee amounts are subject to change in accordance with the latest approved fee schedule.
45. FEMA Flood Zone: The project is located within Flood Zone D according to FEMA Panel Number 06071C8105H & 06071C8110H dated 8/28/2008. Flood hazards are undetermined in this area but possible. The requirements may change based on the recommendations of a drainage study accepted by the Land Development Division and the most current Flood Map prior to issuance of grading permit. However, the site is located within a flood hazard area for the 100-year floodplain shown on the Awareness Maps prepared by the California Department of Water Resources (DWR). Awareness floodplains identify the 100-year flood hazard areas using approximate assessment procedures. These floodplains will be shown simply as flood prone areas without specific depths and other flood hazard data.
46. Drainage Easements: Adequate San Bernardino County Drainage Easements (minimum fifteen [15] feet wide) shall be provided over the natural drainage courses, drainage facilities/or concentration of runoff from the site. Proof of recordation shall be provided to the Land Development Division.
47. Drainage Improvements: A Registered Civil Engineer (RCE) shall investigate and design adequate drainage improvements to intercept and conduct the off-site and on-site drainage flows around and through the site in a safety manner, which will not adversely affect adjacent or downstream properties. Submit drainage study for review and obtain approval. A \$750 deposit for drainage study review will be collected upon submittal to the Land Development Division. Deposit amounts are subject to change in accordance with the latest approved fee schedule.
48. Streambed Alteration Agreement: California Department of Fish and Wildlife (CDFW) must be notified per Fish and Game Code (FGC) §1602. A streambed alteration agreement shall be provided prior to Grading permit issuance. Link to CDFW website at <https://www.wildlife.ca.gov/Conservation/LSA>.

Conditions of Approval

49. On-site Flows: On-site flows need to be directed to the nearest County road or drainage facilities unless a drainage acceptance letter is secured from the adjacent property owners and provided to Land Development.
50. Regional Board Permit: Construction projects involving one or more acres must be accompanied by Regional Board permit WDID #. Construction activity includes clearing, grading, or excavation that results in the disturbance of at least one (1) acre of land total.
51. NPDES Permit: An NPDES permit - Notice of Intent (NOI) - is required on all grading of one (1) acre or more prior to issuance of a grading/construction permit. Contact your Regional Water Quality Control Board for specifics. www.swrcb.ca.gov.

Land Use Services – Planning

52. Mitigation Measures: Please see Mitigation Monitoring and Reporting Program for mitigation measures to be completed prior to grading permit issuance.
53. Joshua Tree Relocation Plan: The developer shall submit and have approved by the Planning Division a relocation plan for Joshua Trees within the developed site area. The relocation plan shall be accompanied with certification from a certified arborist, registered professional forester or a Desert Native Plant Expert that the proposed tree removal, replacement, or revegetation activities are appropriate, supportive of a healthy environment, and are in compliance with Chapter 88.01 of the San Bernardino County Development Code. The certification shall include the information in compliance with Department procedures. Transplantation onsite shall be the primary method of addressing Joshua Tree removals from the subject property.
54. GHG - Construction Standards: The developer shall submit for review and obtain approval from County Planning of a signed letter agreeing to include as a condition of all construction contracts/subcontracts requirements to reduce GHG emissions and submitting documentation of compliance. The developer/construction contractors shall do the following: a) Implement the approved Coating Restriction Plans. b) Select construction equipment based on low GHG emissions factors and high-energy efficiency. All diesel/gasoline-powered construction equipment shall be replaced, where possible, with equivalent electric or CNG equipment. c) Grading contractor shall provide and implement the following when possible: - training operators to use equipment more efficiently. - identifying the proper size equipment for a task can also provide fuel savings and associated reductions in GHG emissions. - replacing older, less fuel-efficient equipment with newer models. - use GPS for grading to maximize efficiency. d) Grading plans shall include the following statements: - "All construction equipment engines shall be properly tuned and maintained in accordance with the manufacturers specifications prior to arriving on site and throughout construction duration." - "All construction equipment (including electric generators) shall be shut off by work crews when not in use and shall not idle for more than 5 minutes." e) Schedule construction traffic ingress/egress to not interfere with peak-hour traffic and to minimize traffic obstructions. Queuing of trucks on and off site shall be firmly discouraged and not scheduled. A flagperson shall be retained to maintain efficient traffic flow and safety adjacent to existing roadways. f) Recycle and reuse construction and demolition waste (e.g. soil, vegetation, concrete, lumber, metal, and cardboard) per County Solid Waste procedures. g) The construction contractor shall support and encourage ridesharing and transit incentives for the construction crew and educate all construction workers about the required waste reduction and the availability of recycling services.
55. Diesel Regulations: The operator shall comply with all existing and future California Air Resources Board and Mojave Desert Air Quality Management District regulations related to diesel-fueled trucks, which among others may include: (1) meeting more stringent emission standards; (2) retrofitting existing engines with particulate traps; (3) use of low sulfur fuel; and (4) use of alternative fuels or equipment. The Mojave Desert Air Quality Management District rules for diesel emissions from equipment and trucks are embedded in the compliance for all diesel fueled engines, trucks, and equipment with the statewide California Air Resources Board Diesel Reduction Plan. These measures will be implemented by the California Air Resources Board in phases with new rules imposed on existing and new diesel-fueled engines.

Conditions of Approval

56. Air Quality: Although the Project does not exceed Mojave Desert Air Quality Management District thresholds, the Project proponent is required to comply with all applicable rules and regulations as the Mojave Desert Air Quality Management District is in non-attainment status for ozone and suspended particulates [PM10 and PM2.5 (State)]. To limit dust production, the Project proponent must comply with Rules 402 nuisance and 403 fugitive dust, which require the implementation of Best Available Control Measures for each fugitive dust source. This would include, but not be limited to, the following Best Available Control Measures. Compliance with Rules 402 and 403 are mandatory requirements and thus not considered mitigation measures: a. The Project proponent shall ensure that any portion of the site to be graded shall be pre-watered prior to the onset of grading activities. 1. The Project proponent shall ensure that watering of the site or other soil stabilization method shall be employed on an on-going basis after the initiation of any grading. Portions of the site that are actively being graded shall be watered to ensure that a crust is formed on the ground surface, and shall be watered at the end of each workday. 2. The Project proponent shall ensure that all disturbed areas are treated to prevent erosion. 3. The Project proponent shall ensure that all grading activities are suspended when winds exceed 25 miles per hour. b. Exhaust emissions from vehicles and equipment and fugitive dust generated by equipment traveling over exposed surfaces, will increase NOX and PM10 levels in the area. Although the Project will not exceed Mojave Desert Air Quality Management District thresholds during operations, the Project proponent will be required to implement the following requirements: 1. All equipment used for grading and construction must be tuned and maintained to the manufacturer's specification to maximize efficient burning of vehicle fuel. 2. The operator shall maintain and effectively utilize and schedule on-site equipment and on-site and off-site haul trucks in order to minimize exhaust emissions from truck idling.

Public Health– Environmental Health Services

57. Vector Control Requirement: The project area has a high probability of containing vectors. EHS Vector Control Section will determine the need for vector survey and any required control programs. A vector clearance letter shall be submitted to EHS/Land Use. For information, contact Vector Control at (800) 442-2283.

Prior to Issuance

County Fire - Community Safety

58. Secondary Access Paved: Prior to building permits being issued to any new structure, the secondary access road shall be paved or an all-weather surface and shall be installed as specified in the General Requirement conditions including width, vertical clearance and turnouts.
59. Surface: Fire apparatus access roads shall be designed and maintained to support the imposed loads of fire apparatus and shall be surfaced so as to provide all-weather driving capabilities. Road surface shall meet the approval of the Fire Chief prior to installation. All roads shall be designed to 85% compaction and/or paving and hold the weight of Fire Apparatus at a minimum of 80K pounds.
60. Turnaround: Turnaround. An approved turnaround shall be provided at the end of each roadway one hundred and fifty (150) feet or more in length. Cul-de-sac length shall not exceed six hundred (600) feet; all roadways shall not exceed a 12 % grade and have a minimum of forty-five (45) foot radius for all turns. In the Fire Safety Overlay District areas, there are additional requirements.
61. Two Points of Access: The development shall have a minimum of TWO points of vehicular access. These are for fire/emergency equipment access and for evacuation routes. a. Single Story Road Access Width. All buildings shall have access provided by approved roads, alleys and private drives with a minimum twenty-six (26) foot unobstructed width and vertically to fourteen (14) feet six (6) inches in height. Other recognized standards may be more restrictive by requiring wider access provisions. b. Multi-Story Road Access Width. Buildings three (3) stories in height or more shall have a minimum access of thirty (30) feet unobstructed width and vertically to fourteen (14) feet six (6) inches in height.
62. Water System: Prior to any land disturbance, the water systems shall be designed to meet the required fire flow for this development and shall be approved by the Fire Department. The required fire flow shall be determined by using California Fire Code. The Fire Flow for this project shall be: 1,500 GPM for a TWO hour duration at 20 psi residual operating pressure. Fire Flow is based on a 5,558 sq. ft. structure.

Conditions of Approval

63. Water System Certification: The applicant shall provide the Fire Department with a letter from the serving water company, certifying that the required water improvements have been made or that the existing fire hydrants and water system will meet distance and fire flow requirements. Fire flow water supply shall be in place prior to placing combustible materials on the job site.
64. Water System Commercial: A water system approved and inspected by the Fire Department is required. The system shall be operational, prior to any combustibles being stored on the site. Fire hydrants shall be spaced no more than three hundred (300) feet apart (as measured along vehicular travel-ways) and no more than three hundred (300) feet from any portion of a structure.
65. Building Plans: Building plans shall be submitted to the Fire Department for review and approval.
66. Combustible Protection: Prior to combustibles being placed on the project site an approved all-weather fire apparatus access surface and operable fire hydrants with acceptable fire flow shall be installed. The topcoat of asphalt does not have to be installed until final inspection and occupancy.
67. Fire Fee: The required fire fees shall be paid to the San Bernardino County Fire Department/Community Safety Division.
68. Fire Flow Test: Your submittal did not include a flow test report to establish whether the public water supply is capable of meeting your project fire flow demand. You will be required to produce a current flow test report from your water purveyor demonstrating that the fire flow demand is satisfied. This requirement shall be completed prior to combination inspection by Building and Safety.
69. Haz-Mat Approval: The applicant shall contact the San Bernardino County Fire Department/Hazardous Materials Division (909) 386-8401 for review and approval of building plans, where the planned use of such buildings will or may use hazardous materials or generate hazardous waste materials.
70. Primary Access Paved: Prior to building permits being issued to any new structure, the primary access road shall be paved or an all-weather surface and shall be installed as specified in the General Requirement conditions, including width, vertical clearance and turnouts.
71. Access: The development shall have a minimum of TWO points of vehicular access. These are for fire/emergency equipment access and for evacuation routes. a. Single Story Road Access Width. All buildings shall have access provided by approved roads, alleys and private drives with a minimum twenty-six (26) foot unobstructed width and vertically to fourteen (14) feet six (6) inches in height. Other recognized standards may be more restrictive by requiring wider access provisions. b. Multi-Story Road Access Width. Buildings three (3) stories in height or more shall have a minimum access of thirty (30) feet unobstructed width and vertically to fourteen (14) feet six (6) inches in height.

Land Use Services - Land Development

72. Road Dedication: Road Dedication. The developer shall submit for review and obtain approval from the Land Use Services Department the following dedications.
 - Luna Vista Lane (Section Line – 88’):
 - Road Dedication. A 44-foot grant of easement is required to provide a half-width right-of-way of 44 feet.
 - Curb Returns. A 35-foot radius return grant of easement is required at the intersection of Luna Vista Lane and Old Woman Springs Road. A 35- foot radius return grant of easement is required at the intersection of Luna Vista and Sage Avenue.
 - Sage Avenue (Section Line - 88’):
 - Road Dedication. A 44-foot grant of easement is required to provide a half-width right-of- way of 44 feet.
 - Curb Returns. A 35-foot radius return grant of easement is required at the intersection of Sage Avenue and La Brisa Drive.
 - La Brisa Drive (Section Line - 88’):
 - Road Dedication. A 44-foot grant of easement is required to provide a half-width right-of-way of 44 feet.
 - Old Woman Springs Road – State Highway 247 (Major Highway - 104’):
 - Road Dedication. A 44-foot grant of easement is required to provide a half-width right-of-way of 44 feet.
73. Caltrans Review: Obtain comments from Caltrans for access requirements and working within their right-of-way.

Conditions of Approval

Land Use Services – Planning

74. Mitigation Measures: Please see Mitigation Monitoring and Reporting Program for mitigation measures to be completed prior to building permit issuance.
75. Signs: All proposed on-site signs shall be shown on a separate plan, including location, scaled and dimensioned elevations of all signs with lettering type, size, and copy. Scaled and dimensioned elevations of buildings that propose signage shall also be shown. The applicant shall submit sign plans to County Planning for all existing and proposed signs on this site. The applicant shall submit for approval any additions or modifications to the previously approved signs. All signs shall comply with SBCC Chapter 83.13, Sign Regulations, SBCC §83.07.040, Glare and Outdoor Lighting Mountain and Desert Regions, and SBCC Chapter 82.19, Open Space Overlay as it relates to Scenic Highways (§82.19.040), in addition to the following minimum standards: a. All signs shall be lit only by steady, stationary shielded light; exposed neon is acceptable. b. All sign lighting shall not exceed 0.5 foot-candle. c. No sign or stationary light source shall interfere with a driver's or pedestrian's view of public right-of-way or in any other manner impair public safety. d. Monument signs shall not exceed four feet above ground elevation and shall be limited to one sign per street frontage.
76. Geologist: A qualified geologist shall inspect any excavations (foundation, utility, etc.) on the Project Site during construction for possible indications of faulting. If unanticipated evidence of faulting is encountered in these excavations, further relocation of the site structures may be necessary to maintain the recommended setback from active faults. Evidence of such action shall be provided to County Planning and evaluated for acceptability.
77. Earthwork: All earthwork and construction shall be in conformance with the recommendations of the Design-phase Geotechnical Investigation dated January 11, 2021, for site clearing, grading, foundations, and utility trenching, etc. With implementation of these Mitigation Measures, the proposed Project would not result in substantial adverse effects due to a rupture of a known earthquake fault.

Public Health– Environmental Health Services

78. Water Service Verification Letter: Applicant shall procure a verification letter from the water service provider. This letter shall state whether or not water connection and service shall be made available to the project by the water provider. This letter shall reference the File Index Number and Assessor's Parcel Number(s). For projects with current active water connections, a copy of water bill with project address may suffice. For information, contact the Water Section at 1-800-442-2283.
79. Water Purveyor: Water purveyor shall be Big Horn Desert View WA or EHS approved.
80. Sewer Connection: If sewer connection and/or service are unavailable, onsite wastewater treatment system(s) may then be allowed under the following conditions:
 - a. A soil percolation report shall be submitted to EHS for review and approval. For information, please contact the Wastewater Section at (800) 442-2283.
 - b. An Alternative Treatment System, if applicable, shall be required.
81. Water and/or Sewer Service Provider Verification. Please provide verification that the parcel(s) associated with the project is/are within the jurisdiction of the water and/or sewer service provider. If the parcel(s) associated with the project is/are not within the boundaries of the water and/or sewer service provider, submit to EHS verification of Local Agency Formation Commission (LAFCO) approval of either:
 - a. Annexation of parcels into the jurisdiction of the water and/or sewer service provider; or,
 - b. Out-of-agency service agreement for service outside a water and/or sewer service provider's boundaries. Such agreement/contract is required to be reviewed and authorized by LAFCO pursuant to the provisions of Government Code Section 56133.
82. Regional Board Clearance. Written clearance shall be obtained from the designated California Regional Water Quality Control Board (listed below) and a copy forwarded to EHS for projects with design flows greater than 10,000 gallons per day.

Colorado River Basin Region, 73-720 Fred Waring Dr., Suite 100, Palm Desert, CA 92260, (760-346-7491).

Conditions of Approval

Record: PROJ-2020-00191

System Date: 1/4/2023

83. Swimming Pool Plan Check Required: Plans for swimming pool(s) and associated restroom facilities shall be reviewed and approved by EHS. For information, call EHS/Plan Check at: 1-800-442-2283.
84. Sewage Disposal: Method of sewage disposal shall be an EHS approved OWTS and conform to the Local Agency Management Program (LAMP).
85. Preliminary Acoustical Information: Submit preliminary acoustical information demonstrating that the proposed project maintains noise levels at or below San Bernardino County Noise Standard(s), San Bernardino Development Code Section 83.01.080. The purpose is to evaluate potential future on-site and/or adjacent off-site noise sources. If the preliminary information cannot demonstrate compliance to noise standards, a project specific acoustical analysis shall be required. Submit information/analysis to the DEHS for review and approval. For information and acoustical checklist, contact DEHS at 1-800-442-2283.
86. Food Establishment Plan Check Required: Plans for food establishments shall be reviewed and approved by EHS. For information, call EHS/Plan Check at: 1-800-442-2283.
87. Existing Wells: If wells are found on-site, evidence shall be provided that all wells are: (1) properly destroyed, by an approved C57 contractor and under permit from the County OR (2) constructed to EHS standards, properly sealed and certified as inactive OR (3) constructed to EHS standards and meet the quality standards for the proposed use of the water (industrial and/or domestic). Evidence shall be submitted to DEHS for approval.

Public Works – Traffic Division

88. Traffic Division: The Applicant is required to obtain approvals from Caltrans prior to final conditions from County Traffic.

Public Works – Solid Waste Management Division

89. Construction Waste Management Plan (CWMP) Part 1 – The developer shall prepare, submit, and obtain approval from SWMD of a CDWMP Part 1 for each phase of the project. The CWMP shall list the types and weights of solid waste materials expected to be generated from construction. The CWMP shall include options to divert waste materials from landfill disposal, materials for reuse or recycling by a minimum of 65% of total weight or volume. Forms can be found on our website at <http://cms.sbcounty.gov/dpw/solidwastemanagement.aspx>. An approved CDWMP Part 1 is required before a permit can be issued. There is a one time fee of \$150.00 for residential projects/\$530.00 for commercial/non-residential projects.

Conditions of Approval

Prior to Final Inspection

County Fire - Community Safety

90. Commercial Addressing: Commercial and industrial developments of 100,000 sq. ft or less shall have the street address installed on the building with numbers that are a minimum six (6) inches in height and with a three quarter (3/4) inch stroke. The street address shall be visible from the street. During the hours of darkness, the numbers shall be electrically illuminated (internal or external). Where the building is two hundred (200) feet or more from the roadway, additional non-illuminated contrasting six (6) inch numbers shall be displayed at the property access entrances.
91. Fire Alarm - Manual: A manual, automatic or manual and automatic fire alarm system complying with the California Fire Code, NFPA and all applicable codes is required. The applicant shall hire a Fire Department approved fire alarm contractor. The fire alarm contractor shall submit three (3) sets of detailed plans to the Fire Department for review and approval. The required fees shall be paid at the time of plan submittal.
92. Fire Extinguishers: Hand portable fire extinguishers are required. The location, type, and cabinet design shall be approved by the Fire Department.
93. Fire Lanes: The applicant shall submit a fire lane plan to the Fire Department for review and approval. Fire lane curbs shall be painted red. The "No Parking, Fire Lane" signs shall be installed on public/private roads in accordance with the approved plan.
94. Fire Sprinkler-NFPA #13: An automatic fire sprinkler system complying with NFPA Pamphlet #13 and the Fire Department standards is required. The applicant shall hire a Fire Department approved fire sprinkler contractor. The fire sprinkler contractor shall submit plans to the with hydraulic calculation and manufacturers specification sheets to the Fire Department for approval and approval. The contractor shall submit plans showing type of storage and use with the applicable protection system. The required fees shall be paid at the time of plan submittal.
95. Hood and Duct Suppression: An automatic hood and duct fire extinguishing system is required. A Fire Department approved designer/installer shall submit detailed plans with manufactures ' specification sheets to the Fire Department for review and approval. The required fees shall be paid at the time of plan submittal.
96. Hydrant Marking: Blue reflective pavement markers indicating fire hydrant locations shall be installed as specified by the Fire Department. In areas where snow removal occurs or non-paved roads exist, the blue reflective hydrant marker shall be posted on an approved post along the side of the road, no more than three (3) feet from the hydrant and at least six (6) feet high above the adjacent road.
97. Illuminated Site Diagram: The applicant shall submit for review and approval a site diagram plan to the Fire Department. The applicant shall install at each entrance to a multi-family complex an illuminated diagrammatic representation of the complex, which shows the location of each unit and each fire hydrant.
98. Key Box: An approved Fire Department key box is required. In commercial, industrial and multi-family complexes, all swing gates shall have an approved fire department Knox Lock.
99. Material Identification Placards: The applicant shall install Fire Department approved material identification placards on the outside of all buildings and/or storage tanks that store or plan to store hazardous or flammable materials in all locations deemed appropriate by the Fire Department. Additional placards shall be required inside the buildings when chemicals are segregated into separate areas. Any business with an N.F.P.A. 704 rating of 2-3-3 or above shall be required to install an approved key box vault on the premises, which shall contain business access keys and a business plan.
100. Override Switch: Where an automatic electric security gate is used, an approved Fire Department override switch (Knox ®) is required.
101. Combustible Vegetation: Combustible vegetation shall be removed as follows: a. Where the average slope of the site is less than 15% - Combustible vegetation shall be removed a minimum distance of thirty (30) feet from all structures or to the property line, whichever is less. b. Where the average slope of the site is 15% or greater - Combustible vegetation shall be removed a minimum one hundred (100) feet from all structures or to the property line, whichever is less.

Conditions of Approval

102. Material Identification Placards: The applicant shall install Fire Department approved material identification placards on the outside of all buildings and/or storage tanks that store or plan to store hazardous or flammable materials in all locations deemed appropriate by the Fire Department. Additional placards shall be required inside the buildings when chemicals are segregated into separate areas. Any business with an N.F.P.A. 704 rating of 2-3-3 or above shall be required to install an approved key box vault on the premises, which shall contain business access keys and a business plan.
103. Override Switch: Where an automatic electric security gate is used, an approved Fire Department override switch (Knox ®) is required.
104. Combustible Vegetation: Combustible vegetation shall be removed as follows: a. Where the average slope of the site is less than 15% - Combustible vegetation shall be removed a minimum distance of thirty (30) feet from all structures or to the property line, whichever is less. b. Where the average slope of the site is 15% or greater - Combustible vegetation shall be removed a minimum one hundred (100) feet from all structures or to the property line, whichever is less.
105. Street Sign: This project is required to have an approved street sign (temporary or permanent). The street sign shall be installed on the nearest street corner to the project. Installation of the temporary sign shall be prior any combustible material being placed on the construction site. Prior to final inspection and occupancy of the first structure, the permanent street sign shall be installed.

Prior to Occupancy

Outstanding County Fire - Community Safety

106. Inspection by the Fire Department: Permission to occupy or use the building (certificate of Occupancy or shell release) will not be granted until the Fire Department inspects, approves and signs off on the Building and Safety job card for "fire final".

Land Use Services - Land Development

107. Drainage Improvements: All required drainage improvements shall be completed by the applicant. The private Registered Civil Engineer (RCE) shall inspect improvements outside the County right-of-way and certify that these improvements have been completed according to the approved plans.
108. LDD Requirements: All LDD requirements shall be completed by the applicant prior to occupancy.
109. Caltrans Approval: Obtain approval from Caltrans for access requirements and working within their right-of-way.

Public Health– Environmental Health Services

110. Motel Construction. Prior to occupancy of a newly constructed or remodeled apartment complex, hotel, motel, resort, pursuant to San Bernardino County Code 33.101 et. seq., a Certificate of Use request shall be submitted to EHS. For information, call EHS at: (800) 442-2283.
111. Swimming Pool. A Recreational Health annual permit for public swimming pool, spa or bathing place shall be required. For information, contact EHS at: (800) 442-2283.
112. Food Permit. A Retail Food Facility annual permit for food facility shall be required. For information, contact EHS at: (800) 442-2283.
113. Pool Water Discharge: If deemed appropriate by the Environmental Health Services Division, pool water can be siphoned into a tanker and hauled to a disposal site. Chlorine, salt, and high-volume daily flow will disrupt the treatment process of a septic system if discharged into it. If discharged through the on-site septic system, the project will need a waiver or individual discharge permit from the Colorado Regional Water Quality Control Board.

Conditions of Approval

Land Use Services – Planning

114. Mitigation Measures: Please see Mitigation Monitoring and Reporting Program for mitigation measures to be completed prior to occupancy permit issuance.
115. Shield Lights: Any lights used to illuminate the site shall include appropriate fixture lamp types as listed in SBCC Table 83-7 and be hooded and designed so as to reflect away from adjoining properties and public thoroughfares and in compliance with SBCC Chapter 83.07, "Glare and Outdoor Lighting" (i.e. "Dark Sky Ordinance).
116. Screen Rooftop: All roof top mechanical equipment is to be screened from ground vistas.
117. Landscaping/Irrigation: All landscaping, dust control measures, all fences, etc. as delineated on the approved Landscape Plan shall be installed. The developer shall submit the Landscape Certificate of Completion verification as required in SBCC Section 83.10.100. Supplemental verification should include photographs of the site and installed landscaping.
118. Installation of Improvements: All required on-site improvements shall be installed per approved plans.
119. Fees Paid: Prior to final inspection by Building and Safety Division and/or issuance of a Certificate of Conditional Use by the Planning Division, the applicant shall pay in full all fees required under actual cost job number PROJ- 2020-00191.
120. Condition Compliance: Prior to occupancy/use, all conditions shall be completed to the satisfaction of County Planning with appropriate authorizing approvals from each reviewing agency.
121. GHG - Installation/Implementation Standards: The developer shall submit for review and obtain approval from County Planning of evidence that all applicable GHG performance standards have been installed, implemented properly and that specified performance objectives are being met to the satisfaction of County Planning and County Building and Safety. These installations/procedures include the following: a) Design features and/or equipment that cumulatively increases the overall compliance of the project to exceed Title 24 minimum standards by five percent. b) All interior building lighting shall support the use of fluorescent light bulbs or equivalent energy-efficient lighting. c) Installation of both the identified mandatory and optional design features or equipment that have been constructed and incorporated into the facility/structure.

Public Works – Solid Waste Management Division

122. Construction Waste Management Plan (CDWMP) Part 2 – The developer shall complete SWMD's CDWMP Part 2 for construction and demolition. This summary shall provide documentation of actual diversion of materials including but not limited to receipts, invoices or letters from diversion facilities or certification of reuse of materials on site. The CDWMP Part 2 shall provide evidence to the satisfaction of SWMD that demonstrates that the project has diverted from landfill disposal, material for reuse or recycling by a minimum of 65% of total weight or volume of all construction waste.
